

Beautiful showers with Bohle

Bath and shower fittings

Shower door hinges · Sliding doors · Accessories

Bath and shower products

Discover our extensive portfolio of shower door fittings. Regardless of whether you are looking for hinges or swing door hinges, shower sliding doors or the right accessories, the Bohle bathroom range has the right product for you. Because yesterday's bathrooms are tomorrow's wellness oases.

About us

When it comes to glass products, tools and fittings, we have secured a very specific place for ourselves: the first!

We are Europe's leading manufacturer and supplier of glass products. We not only support glass processors, but also trade and industry. Our portfolio includes a full range of first-class products. These include fittings for glass railings, sliding doors and showers, handling devices and tools as well as processing materials and industrial products.

Our extensive portfolio includes solutions for bathrooms and showers, interior and exterior fittings and glass railings. One key factor in our success is that we develop and produce many of our products at our headquarters in Haan.

Your benefits

- Comprehensive range - the right product for every application and every budget
- Extensive range of accessories from a single source
- Quick measurements thanks to digital measurement sheets
- Short delivery times and high stock availability
- Technical support with tender texts and planning documents, as well as technical advice, e.g. for major projects worldwide
- Convenient online ordering via the Bohle online shop

Our contribution to sustainability

A sustainable approach to the environment and resources is very important to us. That is why we have produced this catalogue as sustainably as possible. We also operate according to strict environmental standards for our products, production and logistics and not only rely on sustainable processes in our developments, but also on materials of the highest raw material quality.

UV Bonding Training

Over 30 years of experience

With over 30 years' experience in glass bonding, Bohle is the perfect partner to help you expand into UV bonding or develop your existing portfolio. Bohle adhesives possess extremely high bond strength, very short processing times, and have a demonstrable track record of success. Add to that low investment requirements and virtually unlimited design possibilities and UV bonding offers a genuine, low-risk growth opportunity for every business with glass at its heart.

UV Bonding programme

Participants in a one day UV Bonding programme will gain a complete understanding and knowledge of the correct method for UV bonding glass to glass and glass to metal, as well as gaining competency and confidence to pursue this complex yet highly lucrative glass furniture process.

Who is it for?

Those who have never been trained. Those who have never bonded. Those who are interested in seeing what it's all about.

Content

½ practical, ½ theory Group work, Simulation, Demonstration, Product construction.

How long is the course?

Each training course is one day, 9.30 am – 4.00 pm. Participants will take part in the construction of bonded items using a wide range of specialist tools, bonding materials, pre-treatments and adhesives.

Customer Service

We are here for you

Bohle's customer service team is your reliable partner when it comes to planning, specifying and project support. Our experienced team of product experts is at your side with customised solutions. Together we can help to make your orders and projects a success so that your customer is ultimately satisfied.

If you have a question, we will do our best to find the answer. You can rely on us!

- Support with technical planning, including CAD drawings
- Advice on the right product selection
- Customised quotations
- Customised product training and seminars for your team
- Installation tips for final realisation

For price or product enquiries, quotations, orders and all other enquiries:

Online shop

Convenient shopping experience

Whether from your smartphone, tablet or computer - you can access and order from our online shop easily from any device. You will find a comprehensive range of online products related to our favourite material, glass. All the necessary technical details, tips and tricks for installation, new products and a comprehensive service, e.g. with our digital measurement sheets, are available. Order directly from the website to the building site, with transparent costs and a fast delivery service.

Note

For items not in stock, or for urgent requirements, please call Customer Services for lead times on 0800 616151.

Quick order in your customer account

You can use the upload function to upload your order list or enter the desired article numbers directly in the order form. It couldn't be easier. To do this, log in and select the Quick order menu item in your customer account.

Order form

You know the item number or the name of your desired product? Then simply enter it in the left column, select the appropriate product from the search suggestions and finally add the order quantity. With a click on the green button, all products land directly in your shopping cart.

CLEAR LIST

ADD TO SHOPPING CART

Product	Quantity
<input type="text" value="Enter product number or product name..."/>	<div><div>-</div><div>0</div><div>+</div></div>
B05410344 - Juna® shower door hinge, glass-glass 135° (Colour scheme: Chrome-plated shiny)	<div><div>-</div><div>1</div><div>+</div></div> <div></div>

Order list upload

If you have already summarised your order in a list, you can now take an order shortcut. Simply move the file into the window provided. For a smooth upload, we recommend a table with two columns. While column 1 contains the exact product number (e.g. B088.01), column 2 contains the order quantity. Click on the green button to add the products to your shopping basket.

UPLOAD FILE

Digital measurement sheets

Quick, easy and digital. Select your desired shower door hinge range and the planned installation situation and get the right glass dimensions in no time at all. The corresponding article list will help you with your order.

100 years of Bohle. 100 years Made in Germany.

How we stay ahead of the latest developments?

By developing them ourselves!

Our own developments are our trademark. This has been the case for around 100 years. From the Silberschnitt glass cutter to the Veribor suction lifter to our glass fitting solutions. The patents from our development department shape the industry.

"When developing Juna®, we focussed on simple and clever installation."

Frank, Juna® product developer

Quality in three steps

By that we mean our team of developers, specialists who set new standards in terms of workmanship and technology. The key to our success is down to three rules: Firstly, we bring high-quality and durable products to the market. Secondly, we simplify processes through innovative techniques. And thirdly, we make no compromises when it comes to safety.

Strictest quality tests

All our products go through multiple quality controls.

Many products are tested according to DIN standards and have test certificates.

Our quality management system has been regularly certified according to ISO 9001 since 1998.

Juna® – Innovation from the start

Sophisticated technology meets first-class design

Developed and designed by Bohle, the Juna shower door hinge combines aesthetics and functionality with quality and “Made in Germany” workmanship. Minimum gap dimensions and concealed screws emphasize the supreme quality of this swinging door hinge. In addition, Juna is manu-factured from the highest quality materials.

- Durability: High-quality brass and stainless steel materials inside the hinge
- Attractive aesthetics: Minimised gap dimensions and precise fit of the cover caps
- Quick and easy installation: Patented zero position adjustment with just one tool

Juna has been successfully tested for 100,000 swing door cycles by the ift Rosenheim. (DIN EN 14428:2005-02, section 5.5)

Strikingly striking

The new surfaces bring colour into play - and into the bathroom. The desire for individuality in the bathroom is growing. Shapes, colours and furnishings are coordinated and give the room its own style. The new finishes from Juna® now bring even more variety to the shower.

Colour variation for Juna®
from page 31 and for Bilbao
Select from page 62

Juna[®] – Innovation from the start

Perfect zero position

Thanks to the innovative clamping technology, no disturbing notches are produced on the hinge axis – for a precise adjustment of the zero position down to the millimetre. The clamping screws and the zero position fixing screw have uniform screw heads which can be conveniently tightened with just one tool. The centred mounting plate enables the optimum positioning of the cover cap. A stable plug connection guarantees its firm and precise fit.

Efficient mounting with only one tool

The clamping screws and the zero position fixing screw have uniform TX30 screw heads which can be conveniently tightened using only one tool. The troublesome exchange of screwing tools while working is therefore a thing of the past. In addition, the elongated holes for the wall connection provide increased comfort when adjusting the hinge. Two-part clamping plates also enable deeper threaded holes in the fitting and thus ensure a safe grip. At the same time, the hinge is protected against deformations on the outside.

- Uniform screw heads
- TX 30 screw heads
- Two-part clamping plate
- Hinge is protected against distortion

Precise fit of cover caps

The high quality design of Juna stands out thanks to its minimum gap dimensions. One of the features is the precise fit of the cover caps. For this purpose, Bohle has developed an 4-point fixing mechanism which fixes the caps precisely in place. This is made possible by four small centring pins and the tailor-made seating in the hinge. In addition, water resistant rubber rings provide additional hold. In this way, the cover caps are maintained in their exact position for years, without slipping.

Juna[®] shower door fittings

Developed and designed by Bohle, the Juna[®] shower door hinge combines aesthetics and functionality with quality and "Made in Germany" manufacturing. The high-quality components inside the hinge guarantee the durability of the product, meaning that Juna[®] can be used not only for showers but also for sauna doors. Extensive tests in accordance with DIN 14428:2015-09, section 5.5 confirm the quality of the shower door hinge with 100,000 test cycles (sauna application: 20,000 cycles).

JUNA® SHOWER DOOR HINGE, GLASS-WALL 90°

The Juna® glass-wall 90° swing shower door hinge has a load capacity of 50 kg. Doors up to 1 x 2.25 m can be achieved. The hinge is designed for right-angled corner showers and recess showers. It is screwed to the wall using two slotted holes and a securing hole.

YOUR BENEFITS

- Perfect zero position adjustment thanks to innovative clamping technology
- High-quality design with minimal gaps and concealed screws
- Efficient mounting with only one tool

TECHNICAL DETAILS

- Door width: 1,000 mm
- Door height: 2,250 mm
- Max. door weight per pair: 50 kg
- Glass thickness ESG: 6 - 10 mm
- Material: Brass, Stainless steel V2A

ADJUSTABLE ANGLE CONNECTOR, GLASS-GLASS/WALL 45-180°

The angle connector can be freely adjusted between 45-180° with just one screw. It can be used for glass-glass or glass-wall applications to connect a wall with a glass side panel or two fixed glass side panels at almost any angle.

YOUR BENEFITS

- Only glass drilling required
- Can be used across all product ranges, e.g. Madrid, Arta and Santos
- Can be used as a glass-glass and glass-wall connector

ART NO. COLOUR SCHEME

BO 5218459	Chrome-plated shiny
BO 5218460	Stainless steel colour brushed matt
BO 5218461	Black matt

TECHNICAL DETAILS

- Mounting type: Glass-Glass, Glass-Wall
- Glass thickness ESG: 6 - 10 mm
- Angle: 45 - 180°
- Concealed wall fixings: Yes
- Material: Brass

PLEASE NOTE

Please refer to the installation drawings and instructions. Suitable for the Madrid, Arta and Santos product ranges.

INCLUDED IN DELIVERY

1 Piece

SANTOS ANGLE CONNECTOR, GLASS-WALL 90°

The 90° glass wall Santos angle connectors connect glass side panels to a fixed wall. Simple glass drill holes are required for this.

YOUR BENEFITS

- Only glass drilling required
- Concealed screws
- Cover caps with clip technology

ART NO. COLOUR SCHEME

BO 5218435	Chrome-plated shiny
BO 5218454	Stainless steel colour brushed matt
BO 5218435B	Black matt

TECHNICAL DETAILS

- Mounting type: Glass-Wall
- Glass thickness ESG: 8 - 10 mm
- Angle: 90°
- Concealed wall fixings: Yes
- Material: Brass

INCLUDED IN DELIVERY

1 Pair

SANTOS CONNECTOR, GLASS-WALL 90°

Santos connector/clamping bracket glass-wall 90° for connecting a fixed glass side panel to a wall. Due to the design, there is no obtrusive fastening tab on the side.

YOUR BENEFITS

- Concealed screws
- No distracting side fastening tab

ART NO.	COLOUR SCHEME

- Material: Brass
- Flush: No

INCLUDED IN DELIVERY

1 Pair

SANTOS ANGLE CONNECTOR, GLASS-GLASS 135°

The 135° glass-glass Santos angle connectors make it possible to create a 135° glass corner connection, for example for space-saving pentagonal showers.

YOUR BENEFITS

- Concealed screws
- Efficient assembly with just one tool
- Cover caps with clip technology

ART NO.	COLOUR SCHEME
B0 5218447	Chrome-plated shiny
B0 5218448	Stainless steel colour brushed matt
B0 5218449	Black matt

TECHNICAL DETAILS

- Mounting type: Glass-Glass
- Glass thickness ESG: 8 - 10 mm
- Angle: 135°
- Material: Brass
- Flush: No

INCLUDED IN DELIVERY

1 Pair

SANTOS SIDE CONNECTOR, GLASS-GLASS/WALL 180°

Santos

The Santos 180° connector can be used either for glass-glass or glass-wall applications to connect a wall with a glass side panel or two fixed glass side panels. It is primarily used for large glass partitions.

YOUR BENEFITS

- Concealed screws
- Can be used as a glass-glass and glass-wall connector

ART NO.	COLOUR SCHEME
B0 5218467	Chrome-plated shiny
B0 5218465	Stainless steel colour brushed matt
B0 5218466	Black matt

TECHNICAL DETAILS

- Mounting type: Glass-Glass, Glass-Wall
- Glass thickness ESG: 8 - 10 mm
- Material: Brass

INCLUDED IN DELIVERY

1 Pair

Bilbao Premium shower door fittings

The Bilbao Premium shower door hinge range combines modern, angular design with practical technical details, and all at an excellent price-performance ratio. The fittings are made of brass and are suitable for glass thicknesses of 8 mm, 10 mm and 12 mm. The zero position is adjustable for all hinges. The automatic return zone of $\pm 15^\circ$ to the zero position ensures convenient closing of the shower door. Outside this zone, the hinges hold any position.

BILBAO PREMIUM HD SHOWER DOOR HINGE, GLASS-WALL 90°, BOTH SIDES WALL MOUNTED

The Bilbao Premium HD glass-wall 90° swing shower door hinge has a load-bearing capacity of 50 kg. Doors up to max. 1 x 2 m can be achieved. The hinge enables a glass door to be mounted on a wall, for example for classic recess or 90° corner showers.

YOUR BENEFITS

- Stepless zero position adjustment

ART NO.	COLOUR SCHEME	WALL CONNECTION
BO 5211561	Chrome-plated shiny	On both sides
BO 5211562	Stainless steel colour brushed matt	On both sides

TECHNICAL DETAILS

- Door width: 1,000 mm
- Door height: 2,000 mm
- Max. door weight per pair: 50 kg
- Glass thickness ESG: 8 - 12 mm
- Material: Brass

BILBAO PREMIUM HD SHOWER DOOR HINGE, GLASS-WALL 90°, ONE SIDE WALL MOUNTED

The Bilbao Premium HD glass-wall 90° swing shower door hinge has a load-bearing capacity of 50 kg. Doors up to max. 1 x 2 m can be achieved. The hinge enables a glass door to be mounted on a wall, for example for classic recess or 90° corner showers.

YOUR BENEFITS

- Stepless zero position adjustment

Bilbao Select shower door fittings

The Bilbao Select shower door hinge range combines modern, angular design with practical technical details, and all at an excellent price-performance ratio. The fittings are made of brass and are suitable for glass thicknesses of 8 mm, 10 mm and 12 mm. The zero position is adjustable for all hinges. The automatic return zone of $\pm 15^\circ$ to the zero position ensures convenient closing of the shower door. Outside this zone, the hinges hold any position.

GRANADA SHOWER DOOR HINGE, GLASS-GLASS 135°

The Granada glass-glass 135° swing shower door hinge has a load-bearing capacity of 35 kg. Doors up to 0.9 x 2 m can be achieved. The hinge for 135° glass-glass installation is designed for modern and space-saving pentagonal showers, for example.

YOUR BENEFITS

- Stepless zero position adjustment

ART NO.	COLOUR SCHEME
BO 5214054	Chrome-plated shiny

TECHNICAL DETAILS

- Door width: 900 mm
- Door height: 2,000 mm
- Max. door weight per pair: 35 kg
- Glass thickness ESG: 8 - 10 mm
- Material: Brass

Granada

GRANADA SHOWER DOOR HINGE, GLASS-GLASS 180°

The Granada glass-glass 180° swing shower door hinge has a load-bearing capacity of 35 kg. Doors up to 0.9 x 2 m can be achieved. The hinge for 180° glass-glass installation has been developed for modern, large glass showers.

YOUR BENEFITS

- Stepless zero position adjustment

ART NO.	COLOUR SCHEME
BO 5214052	Chrome-plated shiny
BO 5214047	Stainless steel colour brushed matt

TECHNICAL DETAILS

- Door width: 900 mm
- Door height: 2,000 mm
- Max. door weight per pair: 35 kg
- Glass thickness ESG: 8 - 10 mm
- Material: Brass

GRANADA ANGLE CONNECTOR, GLASS-WALL 90°

Granada angle connector 90° glass-wall for connecting a fixed glass side panel to a wall.

ART NO.	COLOUR SCHEME
---------	---------------

- Angle: 90°
- Concealed wall fixings: No
- Material: Brass

GRANADA ANGLE CONNECTOR, GLASS-GLASS 90°

Granada 90° glass-glass angle connector for connecting two fixed glass side panels.

ART NO.	COLOUR SCHEME
B0 5213622	Chrome-plated shiny

TECHNICAL DETAILS

- Mounting type: Glass-Glass
- Glass thickness ESG: 8 - 10 mm
- Angle: 90°
- Material: Brass
- Rise/fall function: No

GRANADA CONNECTOR, GLASS-WALL 90°

Granada connector/clamping bracket 90° glass-wall for connecting a fixed glass side panel to a wall.

YOUR BENEFITS

- Concealed wall mounting
- No obtrusive fastening tab on the side

ART NO.	COLOUR SCHEME
BO 5213606	Chrome-plated shiny
BO 5213605	Stainless steel colour brushed matt

TECHNICAL DETAILS

- Mounting type: Glass-Wall
- Glass thickness ESG: 8 - 10 mm
- Angle: 90°
- Concealed wall fixings: Yes
- Material: Brass

Granada

Art shower door fittings

The swing shower door hinge has a self-closing function up to an opening angle of approx. $\pm 15^\circ$. Outside this range, the hinge remains in any position. Art can be used for DIN left and right doors.

ART SHOWER DOOR HINGE, GLASS-WALL 90°, ONE SIDE WALL MOUNTED

The Art glass-wall 90° swing shower door hinge has a load-bearing capacity of 35 kg. Doors up to max. 0.75 x 2 m can be achieved. The hinge enables a glass door to be mounted on a wall, for example for classic recess showers or 90° corner showers.

YOUR BENEFITS

- Efficient installation with only one tool
- Zero position with catch position

ART NO.	COLOUR SCHEME	WALL CONNECTION
BK 8041031	Chrome-plated shiny	One-sided

TECHNICAL DETAILS

- Door width: 750 mm
- Door height: 2,000 mm
- Max. door weight per pair: 35 kg
- Glass thickness ESG: 6 - 10 mm
- Material: Brass

ART SHOWER DOOR HINGE, GLASS-WALL 90°, BOTH SIDES WALL MOUNTED

The Art glass-wall 90° swing shower door hinge has a load-bearing capacity of 35 kg. Doors up to max. 0.75 x 2 m can be achieved. The hinge enables a glass door to be mounted on a wall, for example for classic recess showers or 90° corner showers.

YOUR BENEFITS

- Efficient installation with only one tool
- Zero position with catch position

ART NO.	COLOUR SCHEME	WALL CONNECTION
BK 8042031	Chrome-plated shiny	On both sides

TECHNICAL DETAILS

- Door width: 750 mm
- Door height: 2,000 mm
- Max. door weight per pair: 35 kg
- Glass thickness ESG: 6 - 10 mm
- Material: Brass

ART SHOWER DOOR HINGE, GLASS-GLASS 180°

The Art glass-glass 180° swing shower door hinge has a load-bearing capacity of 35 kg. Doors up to max. 0.75 x 2 m can be achieved. The hinge for 180° glass-glass installation is suitable for aligning a glass door with a fixed glass side panel.

YOUR BENEFITS

- Efficient assembly with only one tool
- Zero position with catch position

ART NO.	COLOUR SCHEME
BK 8043031	Chrome-plated shiny

TECHNICAL DETAILS

- Door width: 750 mm
- Door height: 2,000 mm
- Max. door weight per pair: 35 kg
- Glass thickness ESG: 6 - 10 mm
- Material: Brass

ART ANGLE CONNECTOR, GLASS-WALL 90°

Art angle connector 90° glass-wall for connecting a fixed glass side panel to a wall.

YOUR BENEFITS

- Only glass drilling required
- Concealed wall mounting

ART NO.	COLOUR SCHEME
BK 8048131	Chrome-plated shiny

TECHNICAL DETAILS

- Mounting type: Glass-Wall
- Glass thickness ESG: 6 - 10 mm
- Angle: 90°
- Concealed wall fixings: Yes

ART ANGLE CONNECTOR, GLASS-GLASS 90°

Art angle connector 90° glass-glass for connecting two glass side panels at right angles to each other. Only drill holes in the glass panes are required.

YOUR BENEFITS

- Only glass drilling required
- Efficient assembly with only one tool

ART NO.	COLOUR SCHEME
BK 8048331	Chrome-plated shiny

TECHNICAL DETAILS

- Mounting type: Glass-Glass
- Glass thickness ESG: 6 - 10 mm
- Angle: 90°
- Material: Brass
- Flush: No

Plan Artist FM* shower door fittings

The Plan Artist FM series is characterised by its linear, angular design. The shower door hinges are flush-mounted on the inside and have a raise/lower mechanism. The perfect solution for accessibility or sophisticated showering pleasure in a small space.

*FM = flush-mounted

PLAN ARTIST FM SHOWER DOOR HINGE, GLASS-WALL 90°, DIN LEFT

The Plan Artist FM flush-mounted swing shower door hinge has a load-bearing capacity of 38 kg. Doors up to max. 0.9 x 2.10 m can be achieved. The hinge is designed for attaching a door to a fixed glass side panel. Only simple glass drill holes are required in the side panel. A deduction of 16 mm has been taken into account in the glass cut-out to ensure a flush finish with the fitting. To insert the seal BO 5213494, the glass cut-out must be adapted.

YOUR BENEFITS

- Concealed screws
- Zero position with catch position
- Lifting-lowering technology with 5 mm lifting height

Aqua and Aqua light

Aqua shower door fittings are the perfect alternative to all conventional shower door hinges. The aluminium profile system combines a simple and elegant design with all the technical standards of today: infinitely adjustable zero position, lift/lower mechanism and - depending on the system - ± 3 to 6 mm vertical compensation. Glass processing can also be dispensed with by means of bonding.

AQUA SHOWER DOOR HINGE, GLASS-WALL 90°

The Aqua aluminium profile system for shower doors has a load-bearing capacity of 37 kg. Depending on the glass thickness, swing doors with overall dimensions of up to max. 0.9 x 2.2 m can be achieved. It is a continuous 90° glass-wall profile.

YOUR BENEFITS

- ±6 mm lateral adjustment range to compensate for non-perpendicular walls
- Adjustable profiles with clamping technology
- Lifting/lowering technology with 5 mm lifting height

ART NO.	COLOUR SCHEME	GLASS THICKNESS ESG
BO 5200408	Aluminium colour C0 E3, polished shiny	8 mm
BO 5200407	Aluminium colour C0 E6, stained matt	8 mm
BO 5200406	Aluminium colour C0 E3, polished shiny	6 mm
BO 5200405	Aluminium colour C0 E6, stained matt	6 mm

TECHNICAL DETAILS

- Door width: 900 mm
- Door height: 2,187 mm
- Load capacity: 37 kg
- Material: Aluminium

AQUA LIGHT SHOWER DOOR HINGE, GLASS-WALL 90°

The Aqua aluminium profile system for shower doors has a load-bearing capacity of 37 kg. Depending on the glass thickness, swing doors with overall dimensions of up to max. 0.9 x 2.2 m can be achieved. It is a continuous 90° glass-wall profile.

YOUR BENEFITS

- ±3 mm lateral adjustment range to compensate for non-perpendicular walls
- Screw fixed adjustable profile
- Lifting-lowering technology with 5 mm lifting height

ART NO.	COLOUR SCHEME	GLASS THICKNESS ESG
BO 5200420	Aluminium colour C0 E3, polished shiny	8 mm
BO 5200419	Aluminium colour C0 E6, stained matt	8 mm

Madrid shower door fittings

Madrid shower door fittings are an elegant solution for glass shower doors. The portfolio consists of numerous variants and is therefore suitable for almost all types of installations. A true all-rounder. The hinges are designed as single-action door hinges and enable the sealing profiles to be guided through the hinge. The design is characterised by its straight lines and is very popular in modern bathrooms. No disruptive screw fittings are visible. The Madrid shower door hinge enhances any glass shower!

MADRID SHOWER DOOR HINGE, GLASS-WALL 90°

The Madrid rebate shower door hinge has a load capacity of 45 kg. Doors up to max. 1 x 2.25 m can be achieved. The 90° glass-wall installation is designed for right-angled corner showers and recess showers.

YOUR BENEFITS

- Concealed screws
- Only glass drilling required
- Shower door seals can be passed through the hinge

ART NO.	COLOUR SCHEME
BO 5215430H	Chrome-plated shiny
BO 5215485	Stainless steel colour brushed matt
BO 5215484	Black matt

- Glass thickness ESG: 6 - 10 mm
- Material: Brass

ADJUSTABLE ANGLE CONNECTOR, GLASS-GLASS/WALL 45-180°

The angle connector can be freely adjusted between 45-180° with just one screw. It can be used for glass-glass or glass-wall applications to connect a wall with a glass side panel or two fixed glass side panels at almost any angle.

YOUR BENEFITS

- Only glass drilling required
- Can be used across all product ranges, e.g. Madrid, Arta and Santos
- Can be used as a glass-glass and glass-wall connector

TECHNICAL DETAILS

- Mounting type: Glass-Glass, Glass-Wall
- Glass thickness ESG: 6 - 10 mm
- Angle: 45 - 180°
- Concealed wall fixings: Yes
- Material: Brass

PLEASE NOTE

Please refer to the installation drawings and instructions. Suitable for the Madrid, Arta and Santos product ranges.

Avila shower door fittings

The Avila shower door hinge range convinces thanks to its clear-cut design and versatility. The hinges and clamps for one-side opening doors are not only suitable for glass thickness of 6, 8, and 10 mm but can also be used for doors with a height of up to 2.25 m, which are especially sought-after in modern bathrooms. The bathroom is increasingly becoming a place of well-being where ample space is reserved for the shower. Avila supports doors of up to 45 kg and guarantees a long service life thanks to its high quality materials, brass and stainless steel.

AVILA SHOWER DOOR HINGE, GLASS-WALL 90°

The Avila glass-wall 90° shower door hinge has a load-bearing capacity of 45 kg. Doors up to 1 x 2.25 m can be achieved. The 90° glass-wall mounting enables a glass door to be mounted on a wall.

YOUR BENEFITS

- Only glass drilling required
- Concealed screws
- Shower door seals can be passed through the hinge

ART NO.	COLOUR SCHEME
B0 5215470	Chrome-plated shiny

TECHNICAL DETAILS

- Door width: 1,000 mm
- Door height: 2,250 mm
- Max. door weight per pair: 45 kg
- Glass thickness ESG: 6 - 10 mm
- Material: Brass

AVILA SHOWER DOOR HINGE, GLASS-WALL 90°, OPENING INWARDS

Avila

The Avila glass-wall 90° stop shower door hinge has a load-bearing capacity of 45 kg and opens inwards. Doors up to 1 x 2.25 m can be achieved. The hinge is used for folding doors in right-angled corner showers or niche showers. Folding walls as bath attachments are also possible.

YOUR BENEFITS

- Only glass drilling required
- Concealed screws
- Shower door seals can be passed through the hinge

ART NO.	COLOUR SCHEME	OPENING INWARDS
BO 5215471	Chrome-plated shiny	Yes

TECHNICAL DETAILS

- Door width: 1,000 mm
- Door height: 2,250 mm
- Max. door weight per pair: 45 kg
- Glass thickness ESG: 6 - 10 mm
- Material: Brass

AVILA SHOWER DOOR HINGE, GLASS-GLASS 180°

The Avila glass-glass 180° hinged shower door has a load-bearing capacity of 45 kg. Doors up to 1 x 2.25 m can be achieved. With the 180° glass-glass assembly, the hinge is designed for 180° folding glass doors and large glass fronts, among other things.

YOUR BENEFITS

- Only glass drilling required
- Concealed screws
- Shower door seals can be passed through the hinge

ART NO.	COLOUR SCHEME
B0 5215474	Chrome-plated shiny

TECHNICAL DETAILS

- Door width: 1,000 mm
- Door height: 2,250 mm
- Max. door weight per pair: 45 kg
- Glass thickness ESG: 6 - 10 mm
- Material: Brass

AVILA ANGLE CONNECTOR, GLASS-WALL 90°

Avila

Avila angle connector 90° glass-wall for connecting a fixed glass side panel to a wall. Only simple glass holes in the glass panes are required.

YOUR BENEFITS

- Only glass drilling required
- Concealed screws
- Cover caps with clip technology

ART NO.	COLOUR SCHEME
B0 5215473	Chrome-plated shiny

TECHNICAL DETAILS

- Mounting type: Glass-Wall
- Glass thickness ESG: 6 - 10 mm
- Angle: 90°
- Concealed wall fixings: Yes
- Material: Brass

AVILA ANGLE CONNECTOR, GLASS-GLASS 90°

Avila angle connector 90° glass-glass for connecting two fixed glass side panels to each other. Only simple holes in the glass panes are required.

YOUR BENEFITS

- Only glass drilling required
- Concealed screws
- Cover caps with clip technology

ART NO.	COLOUR SCHEME
B0 5215472	Chrome-plated shiny

TECHNICAL DETAILS

- Mounting type: Glass-Glass
- Glass thickness ESG: 6 - 10 mm
- Angle: 90°
- Material: Brass
- Flush: No

Arta shower door fittings

The Arta series impresses with its clear design and many features, such as the integrated raise/lower mechanism and the infinitely variable zero position adjustment. The extensive product range consists of many variants and is therefore suitable for a wide range of installations. Robust materials inside the hinge guarantee a long service life.

ARTA SHOWER DOOR HINGE, GLASS-WALL 90°, DIN LEFT

The Arta glass-wall 90° shower door hinge has a load-bearing capacity of 40 kg. Doors up to 1 x 2 m can be achieved. The hinge has a lifting and lowering function and is designed for right-angled corner showers and recess showers.

YOUR BENEFITS

- Shower door seals can be guided through the hinge
- Stepless zero position adjustment
- Lift/lower mechanism with 5 mm lifting height

1 Piece

Lugo FM* shower door fittings

Lugo is an all-rounder for a wide variety of bathroom styles. Modern and timeless in design, the high-quality solid brass fittings series can be integrated into any bathroom design. The straight lines in combination with the slightly rounded edges make Lugo FM an elegant classic. All screws disappear behind a cover, ensuring a visually clear and minimalist design. The lift and lower function is particularly convenient, allowing the door fittings to close easily and silently by themselves. Lugo is therefore also ideal for use in barrier-free bathrooms.

*FM = flush-mounted

LUGO FM SHOWER DOOR HINGE, GLASS-WALL 90°, DIN LEFT

The flush-mounted Lugo FM shower door hinge has a load-bearing capacity of 36 kg. Doors up to max. 0.9 x 2.00 m can be achieved. With the 90° glass-wall mounting, the hinge is designed for recess showers and classic 90° corner showers.

YOUR BENEFITS

- Flush mounting
- Lifting and lowering technology with 5mm lifting height
- Concealed screws

Vigo Walk-in shower

The Bohle Vigo walk-in shower offers a clean design for the highest demands. The glass panel is simply inserted into the support bars, which are individually adjustable and invisibly screwed between the floor and ceiling. No reinforcement bar is required. Barrier-free access and manoeuvrability on both sides. Ideal for sloping ceilings and sophisticated, open designs.

VIGO WALK-IN SHOWER, COMPLETE SET

Vigo Walk-In shower systems, modern and barrier-free. Glass shower partitions up to 2.2 m high with a maximum ceiling height of 2.8 m can be achieved. Simple installation and cleaning make it easy to decide in favour of Vigo, which is available in two shapes and surface finishes.

YOUR BENEFITS

- Barrier-free
- Profile can be cut to desired length
- Protected glass edges

ART NO.	COLOUR SCHEME	SHAPE
B0 5215435	Stainless steel colour brushed matt	Square
B0 5215437	Stainless steel colour brushed matt	Round
B0 5215438	Stainless steel colour polished shiny	Round

TECHNICAL DETAILS

- Glass thickness: 8 - 10 mm
- Length: 2,800 mm
- Material: Stainless steel

INCLUDED IN DELIVERY

- 1 Piece Stainless steel profile incl. mounting accessories
- 1 Piece Rubber profile for 8 and 10 mm

VIGO WALK-IN, FLOOR BONDING PLATE

Vigo Walk-In floor bonding plates are used instead of the standard floor plates that have to be screwed in place, so there is no need for a screw hole in the floor. Only a 5 mm safety hole a few millimetres short is required to prevent lateral movement; the sealing level remains unaffected.

YOUR BENEFITS

- Sealing level remains unaffected
- No screws required
- Grooves in the adhesive surface for optimum adhesive distribution

MasterTrack® ST sliding shower door system

MasterTrack® ST is a high-tech sliding door system for showers that impresses with its minimalist, modern design, simple installation and sophisticated technology. The sliding system is equally suitable for alcove, corner and free-standing showers and can be installed barrier-free or with a discreet swing protection as required.

MASTERTRACK® ST SLIDING DOOR SET RECESS SHOWER

TECHNICAL DETAILS

- Mounting type: Recess solution
- Material: Aluminium
- Door weight max.: 40 kg
- Glass thickness ESG door wing: 8 mm
- Glass thickness ESG fixed part: 8 mm

Uniquely quiet running and discreet design make MasterTrack® ST the perfect partition for any shower. The MasterTrack® ST complete sets are suitable for all installation types, including spacious recesses up to 2 metres wide. Please order the glass mounting set separately to attach the running track to fixed glazing (one-sided corner solution): BO 5700045 / BO 5700046 / BO 5700061. Please also order optional retractable damping BO 5700051 and optional anti-swing protection separately: BO 5700052 / BO 5700053 / BO 5700063.

YOUR BENEFITS

- Impressively smooth running
- No glass processing, such as drilling, required
- Ideal power transmission and safe lift-out protection

ART NO.	COLOUR SCHEME	LENGTH
BO 5741543	Aluminium colour C0 polished E8 polished and chemically polished	1,200 mm
BO 5741541	Aluminium colour C0 anodised E6, stained matt	1,200 mm

Reinforcement bars

Round or square, can be shortened to any size, with adjustable wall and glass connections: Our reinforcement bars for shower walls can be easily and perfectly aligned. Many parts are also available from us individually so that you can customise the system to your property. You also have a choice of colours.

REINFORCEMENT BAR SET ROUND 12, GLASS-WALL

Reinforcement bar set Round 12 is used to connect a fixed glass side panel to a wall. The glass connector is clamped onto the upper glass edge and, like the wall connector, is freely adjustable in angle.

YOUR BENEFITS

- No glass processing required
- Small unobtrusive design
- Reinforcement bar can be cut to desired length

ART NO.	COLOUR SCHEME	LENGTH	ADJUSTABLE
BO 5420165	Chrome-plated shiny	1,210 mm	Yes
BO 5420209	Stainless steel colour brushed matt	1,210 mm	Yes
BO 5420165B	Black matt	1,210 mm	Yes

TECHNICAL DETAILS

- Mounting type: Glass-Wall
- Glass thickness ESG: 8 - 10 mm
- Material: Brass
- Diameter: 12 mm

INCLUDED IN DELIVERY

- 1 Piece Reinforcement bar
- 1 Piece Adjustable glass connector
- 1 Piece Adjustable wall connector

REINFORCEMENT BAR ROUND 12

Reinforcement bar suitable for the Round 12 series, for individual compilation of a set.

YOUR BENEFITS

- Individual composition of a set from components possible
- Small unobtrusive design

TECHNICAL DETAILS

- Diameter: 12 mm

ART NO.	COLOUR SCHEME	LENGTH
BO 5420067	Chrome-plated shiny	1,210 mm

WALL CONNECTION ROUND 12, ADJUSTABLE

Adjustable wall connector for connecting the Round 12 reinforcement bar to a fixed wall. Its two-part construction allows infinitely variable angle adjustment.

YOUR BENEFITS

- Small unobtrusive design
- Stepless angle adjustment

ART NO.	COLOUR SCHEME	ANGLE	ADJUSTABLE
BO 5420108	Chrome-plated shiny	0 - 90°	Yes

TECHNICAL DETAILS

- Product range: Round 12
- Material: Brass
- Diameter: 12 mm

WALL CONNECTOR ROUND 12

90° wall connector for connecting the Round 12 reinforcement bar to a fixed wall. This connector has a slotted hole to accommodate the fixing screw and can be perfectly aligned in its position.

YOUR BENEFITS

- Small unobtrusive design
- Slot adjustment

ART NO.	COLOUR SCHEME	ANGLE	ADJUSTABLE
BO 5420064	Chrome-plated shiny	90°	No

TECHNICAL DETAILS

- Product range: Round 12
- Material: Brass
- Diameter: 12 mm

THREE-POINT CONNECTOR ROUND 12

Three-point connector Round 12 for creating a 90° branch on a reinforcement bar to hold two fixed side panels with just one reinforcement.

YOUR BENEFITS

- Concealed screws
- Small, unobtrusive design
- Can be freely positioned along the length of the reinforcement bar

ART NO.	COLOUR SCHEME	ANGLE	ADJUSTABLE
BO 5420069	Chrome-plated shiny	90°	No

TECHNICAL DETAILS

- Product range: Round 12
- Material: Brass
- Diameter: 12 mm

GLASS CONNECTOR ROUND 12

Glass connector suitable for the Round 12 reinforcement bar, serves to connect a fixed glass side panel with a reinforcement bar. This glass connector is clamped onto the upper glass edge and is freely adjustable in angle.

YOUR BENEFITS

- Stepless angle adjustment
- No glass processing required
- Small unobtrusive design

ART NO.	COLOUR SCHEME	ANGLE	ADJUSTABLE
BO 5420066	Chrome-plated shiny	0 - 90°	Yes

TECHNICAL DETAILS

- Product range: Round 12
- Glass thickness ESG: 8 - 10 mm
- Material: Brass
- Diameter: 12 mm
- Glass processing required: No

GLASS CONNECTOR ROUND 12, FOR GLASS HOLE

Glass connector suitable for the Round 12 reinforcement bar, used to connect a fixed glass side panel with a Round 12 reinforcement bar. This glass connector is not clamped onto the glass edge as usual, but requires a 12 mm hole in the glass side panel.

YOUR BENEFITS

- Only glass drill holes required
- Small, unobtrusive design
- No annoying clamp on the glass edge

ART NO.	COLOUR SCHEME	ANGLE	ADJUSTABLE
BO 5213678	Chrome-plated shiny	90°	No

TECHNICAL DETAILS

- Product range: Round 12
- Glass thickness ESG: 8 - 12 mm
- Material: Brass
- Diameter: 12 mm
- Glass processing required: Yes

REINFORCEMENT BAR SET ROUND 19, GLASS-WALL 90°

Reinforcement bar set Round 19 is used to connect a fixed glass side panel to a wall. The glass connector is clamped onto the upper glass edge and is freely adjustable in angle. The wall connector is rigid.

YOUR BENEFITS

- No glass processing required
- Reinforcement bar can be cut to desired length
- Glass connector angle adjustable

ART NO.	COLOUR SCHEME	LENGTH	ADJUSTABLE
BO 5420267	Chrome-plated shiny	1,300 mm	Yes

TECHNICAL DETAILS

- Mounting type: Glass-Wall
- Mounting bracket: 90°
- Glass thickness ESG: 6 - 10 mm
- Material: Brass
- Diameter: 19 mm

INCLUDED IN DELIVERY

- 1 Piece Reinforcement bar
- 1 Piece Adjustable glass connector
- 1 Piece Rigid wall connector

REINFORCEMENT BAR SET ROUND 19, GLASS-WALL 45°

Reinforcement bar set Round 19 is used to connect a fixed glass side panel to a wall. The glass connector is clamped onto the upper glass edge and is freely adjustable in angle. The 45° wall connection is rigid.

YOUR BENEFITS

- No glass processing required
- Reinforcement bar can be cut to desired length
- Glass connector angle adjustable

ART NO.	COLOUR SCHEME	LENGTH	ADJUSTABLE
BO 5420208	Chrome-plated shiny	1,000 mm	Yes

TECHNICAL DETAILS

- Mounting type: Glass-Wall
- Mounting bracket: 45°
- Glass thickness ESG: 6 - 10 mm
- Material: Brass
- Diameter: 19 mm

INCLUDED IN DELIVERY

- 1 Piece Reinforcement bar
- 1 Piece Adjustable glass connector
- 1 Piece Rigid wall connector

REINFORCEMENT BAR SET ROUND 19, GLASS-WALL 90°

Reinforcement bar set Round 19 is used to connect a fixed glass side panel to a wall. The glass connection is clamped onto the upper glass edge and is freely adjustable in angle. The wall connection is adjustable.

YOUR BENEFITS

- No glass processing required
- Reinforcement bar can be shortened to desired length
- Angle-adjustable glass connection

ART NO.	COLOUR SCHEME	LENGTH	ADJUSTABLE
B0 5420268	Chrome-plated shiny	1,300 mm	Yes

TECHNICAL DETAILS

- Mounting type: Glass-Wall
- Mounting bracket: 90°
- Glass thickness ESG: 8 - 10 mm
- Material: Brass
- Diameter: 19 mm

INCLUDED IN DELIVERY

- 1 Piece Reinforcement bar
- 1 Piece Adjustable glass connection
- 1 Piece Adjustable wall connection

TELESCOPIC REINFORCEMENT BAR SET ROUND 19, GLASS-WALL 90°

The set is used to connect a fixed glass side panel to a wall. There is no need to use a saw, as the reinforcement bar is freely adjustable over a wide range of lengths.

YOUR BENEFITS

- Adjustable glass connector
- Telescopic reinforcement bar
- No glass processing required

ART NO.	COLOUR SCHEME	TELESCOPIC	ADJUSTABLE
BO 5420215	Chrome-plated shiny	1,000 - 1,150 mm	Yes
BO 5420211	Chrome-plated shiny	820 - 1,000 mm	Yes

TECHNICAL DETAILS

- Mounting type: Glass-Wall
- Mounting bracket: 90°
- Glass thickness ESG: 6 - 10 mm
- Material: Brass
- Diameter: 19 mm

INCLUDED IN DELIVERY

- 1 Piece Reinforcement bar
- 1 Piece Adjustable glass connector
- 1 Piece Rigid wall connector

REINFORCEMENT BAR ROUND 19

Reinforcement bar suitable for the Round 19 series, for individual composition of a set.

YOUR BENEFITS

- Individual composition of a set from components possible
- Many different lengths possible
- Reinforcement bar can be shortened individually

ART NO.	COLOUR SCHEME	LENGTH
BO 5420101	Chrome-plated shiny	1,000 mm
BO 5420105	Chrome-plated shiny	1,300 mm
BO 5420107	Chrome-plated shiny	1,800 mm
BO 5420003	Stainless steel colour brushed matt	1,000 mm
BO 5420007	Stainless steel colour brushed matt	1,300 mm

TECHNICAL DETAILS

- Product range: Round 19
- Material: Brass
- Diameter: 19 mm

WALL CONNECTION ROUND 19, ADJUSTABLE

Adjustable wall connector for connecting the Round 19 reinforcement bar to a fixed wall. Its two-part design allows infinitely variable angle adjustment.

YOUR BENEFITS

- Small unobtrusive design
- Stepless angle adjustment

TECHNICAL DETAILS

- Product range: Round 19
- Material: Brass
- Diameter: 19 mm

ART NO.	COLOUR SCHEME	ANGLE	ADJUSTABLE
BO 5420014	Chrome-plated shiny	0 - 90°	Yes

WALL CONNECTOR ROUND 19

90° wall connector for connecting the Round 19 reinforcement bar to a fixed wall.

YOUR BENEFITS

- Small unobtrusive design

TECHNICAL DETAILS

- Product range: Round 19
- Material: Brass
- Diameter: 19 mm

ART NO.	COLOUR SCHEME	ANGLE	ADJUSTABLE
BO 5420061	Chrome-plated shiny	90°	No

GLASS CONNECTOR ROUND 19, WITH THROUGH-HOLE

Glass connector with through-hole for sliding onto a reinforcement bar. This is clamped onto the upper edge of the fixed glass side panel, can be freely positioned along the length of the reinforcement bar and is infinitely adjustable in angle.

YOUR BENEFITS

- Stepless angle adjustment
- No glass processing required

ART NO.	COLOUR SCHEME	ANGLE	ADJUSTABLE
BO 5420125	Chrome-plated shiny	0 - 360°	Yes

TECHNICAL DETAILS

- Product range: Round 19
- Glass thickness ESG: 6 - 10 mm
- Material: Brass
- Diameter: 19 mm
- Glass processing required: No

GLASS CONNECTOR ROUND 19, HIGH VERSION, WITH THROUGH-HOLE

Glass connector with through-hole for sliding onto a reinforcement bar. This is clamped onto the upper edge of the fixed glass side panel, can be freely positioned along the length of the reinforcement bar and is infinitely adjustable in angle.

YOUR BENEFITS

- Stepless angle adjustment
- No glass processing required

ART NO.	COLOUR SCHEME	ANGLE	ADJUSTABLE
BO 5420135	Chrome-plated shiny	0 - 360°	Yes

TECHNICAL DETAILS

- Product range: Round 19
- Glass thickness ESG: 6 - 10 mm
- Material: Brass
- Diameter: 19 mm
- Glass processing required: No

GLASS CONNECTOR ROUND 19, CEILING CONNECTION

Glass connector for connecting a fixed glass side panel to the ceiling, suitable for the Round 19 series.

YOUR BENEFITS

- No glass processing required
- No reinforcement bar in the area of the shower head

TECHNICAL DETAILS

- Product range: Round 19
- Material: Brass
- Diameter: 19 mm
- Angle: 180°
- Glass processing required: No

ART NO.	COLOUR SCHEME	GLASS THICKNESS ESG	ADJUSTABLE
BO 5420051	Chrome-plated shiny	6 - 8 mm	No
BO 5420055	Chrome-plated shiny	10 - 12 mm	No

TRIANGULAR CONNECTOR ROUND 19, WITH GLASS CONNECTION, ADJUSTABLE

Three-point connector with glass connector Round 19 for creating a 90° branch on a reinforcement bar. The integrated glass connector enables connection to another fixed side panel.

YOUR BENEFITS

- Can be freely positioned along the length of the reinforcement bar
- Integrated glass holder
- Infinitely adjustable angle

ART NO.	COLOUR SCHEME	ANGLE	ADJUSTABLE
BO 5420151	Chrome-plated shiny	0 - 360°	Yes

TECHNICAL DETAILS

- Product range: Round 19
- Glass thickness ESG: 6 - 10 mm
- Material: Brass
- Diameter: 19 mm

THREE-POINT CONNECTOR ROUND 19

Three-point connector Round 19 for creating a 90° branch on a reinforcement bar, for example to hold 2 fixed side panels with just one reinforcement bar.

YOUR BENEFITS

- Concealed screws
- Can be freely positioned along the length of the reinforcement bar

ART NO.	COLOUR SCHEME	ANGLE	ADJUSTABLE
BO 5420155	Chrome-plated shiny	90°	No

TECHNICAL DETAILS

- Product range: Round 19
- Material: Brass
- Diameter: 19 mm

CORNER CONNECTOR ROUND 19

Corner connector 90° Round 19 for connecting two reinforcement bars.

ART NO.	COLOUR SCHEME	ANGLE	ADJUSTABLE
BO 5420041	Chrome-plated shiny	90°	No

TECHNICAL DETAILS

- Product range: Round 19
- Material: Brass
- Diameter: 19 mm

REINFORCEMENT BAR SET SQUARE 12, GLASS-WALL

The Square 12 reinforcement bar set is used to connect a fixed glass side panel to a wall. The glass connector is clamped onto the upper glass edge and, like the wall connector, is freely adjustable in angle.

TECHNICAL DETAILS

- Mounting type: Glass-Wall
- Glass thickness ESG: 8 - 10 mm
- Material: Brass
- Width: 12 mm
- Height: 12 mm

YOUR BENEFITS

- No glass processing required
- Small inconspicuous design
- Reinforcement bar can be cut to desired length

ART NO.	COLOUR SCHEME	LENGTH	ADJUSTABLE
BO 5420262	Chrome-plated shiny	1,210 mm	Yes
BO 5420110	Stainless steel colour brushed matt	1,210 mm	Yes
BO 5420262B	Black matt	1,210 mm	Yes
BO 5420280	Brass polished	1,210 mm	Yes
BO 5420281	Brass brushed	1,210 mm	Yes
BO 5420282	Copper brushed	1,210 mm	Yes
BO 5420283	White matt	1,210 mm	Yes
BO 5420284	Graphite matt	1,210 mm	Yes

Available from
4th quarter 2024

INCLUDED IN DELIVERY

- 1 Piece Reinforcement bar
- 1 Piece Adjustable glass connector
- 1 Piece Adjustable wall connector

REINFORCEMENT BAR SQUARE 12

Reinforcement bar suitable for the Square 12 series, for individual compilation of a set.

YOUR BENEFITS

- Small unobtrusive design
- Individual composition of a set from components possible
- Reinforcement bar can be shortened individually

ART NO.	COLOUR SCHEME	LENGTH
BO 5420264	Chrome-plated shiny	1,210 mm

TECHNICAL DETAILS

- Product range: Square 12
- Material: Brass
- Width: 12 mm
- Height: 12 mm

WALL CONNECTOR SQUARE 12

Adjustable wall connector for connecting the Square 12 reinforcement bar to a fixed wall. Its two-part construction allows infinitely variable angle adjustment.

YOUR BENEFITS

- Small unobtrusive design
- Angle infinitely variable

ART NO.	COLOUR SCHEME	ANGLE	ADJUSTABLE
BO 5420265	Chrome-plated shiny	0 - 90°	Yes

TECHNICAL DETAILS

- Product range: Square 12
- Material: Brass
- Width: 18 mm
- Height: 18 mm

GLASS CONNECTOR SQUARE 12

Glass connector suitable for the Square 12 reinforcement bar. Used to connect a fixed glass side panel with a Square 12 reinforcement bar. This glass connector is clamped onto the upper glass edge and is freely adjustable in angle.

TECHNICAL DETAILS

- Product range: Square 12
- Glass thickness ESG: 8 - 10 mm
- Material: Brass
- Width: 12 mm
- Height: 12 mm

YOUR BENEFITS

- Angle-adjustable glass connector
- No glass processing required

ART NO.	COLOUR SCHEME	ANGLE	ADJUSTABLE
B0 5420263	Chrome-plated shiny	0 - 90°	Yes

GLASS CONNECTOR SQUARE 12, FOR DRILLED GLASS

Glass connector suitable for the Square 12 reinforcement bar, used to connect a fixed glass side panel to a reinforcement bar. This glass connector is not clamped onto the glass edge as usual, but requires a 12 mm hole in the glass side panel.

TECHNICAL DETAILS

- Product range: Square 12
- Glass thickness ESG: 8 - 12 mm
- Material: Brass
- Width: 12 mm
- Height: 12 mm

ART NO.	COLOUR SCHEME	ANGLE	ADJUSTABLE
B0 5213679	Chrome-plated shiny	90°	No

THREE-POINT CONNECTOR SQUARE 12

Square 12 three-point connector for creating a 90° branch on a reinforcement bar, for example to hold two fixed side panels with just one reinforcement bar.

YOUR BENEFITS

- Concealed screws
- Can be freely positioned along the length of the reinforcement bar
- Small, unobtrusive design

ART NO.	COLOUR SCHEME	ANGLE	ADJUSTABLE
BO 5420266	Chrome-plated shiny	90°	No

TECHNICAL DETAILS

- Product range: Square 12
- Material: Brass
- Width: 12 mm
- Height: 12 mm

REINFORCEMENT BAR SET SQUARE 15, GLASS-WALL 90°

Reinforcement bar set Square 15 is used to connect a fixed glass side panel to a wall. The glass connector is clamped onto the upper glass edge and is freely adjustable in angle. The 90° wall connector is rigid.

YOUR BENEFITS

- No glass processing required
- Small inconspicuous design
- Glass connector angle adjustable

ART NO.	COLOUR SCHEME	LENGTH	ADJUSTABLE
BO 5420241	Stainless steel colour shiny	1,000 mm	Yes
BO 5420240	Stainless steel colour matt	1,000 mm	Yes

TECHNICAL DETAILS

- Mounting type: Glass-Wall
- Mounting bracket: 90°
- Glass thickness ESG: 6 - 10 mm
- Material: Stainless steel
- Width: 15 mm

INCLUDED IN DELIVERY

- 1 Piece Reinforcement bar
- 1 Piece Adjustable glass connector
- 1 Piece Rigid wall connector

REINFORCEMENT BAR SQUARE 15

Reinforcement bar suitable for the Square 15 series, for individual compilation of a set.

YOUR BENEFITS

- Small unobtrusive design
- Stabilisation bar can be shortened individually
- Individual composition of a set from components possible

ART NO.	COLOUR SCHEME	LENGTH
BO 5420259	Stainless steel colour polished shiny	1,000 mm
BO 5420261	Stainless steel colour polished shiny	2,000 mm
BO 5420258	Stainless steel colour brushed matt	1,000 mm
BO 5420260	Stainless steel colour brushed matt	2,000 mm

TECHNICAL DETAILS

- Product range: Square 15
- Material: Stainless steel
- Width: 15 mm
- Height: 15 mm

WALL CONNECTOR SQUARE 15, ADJUSTABLE

Wall connector for connecting the Square 15 reinforcement bar to a fixed wall.

YOUR BENEFITS

- Small unobtrusive design

ART NO.	COLOUR SCHEME	ANGLE	ADJUSTABLE
BO 5420247	Stainless steel colour shiny	0 - 90°	Yes
BO 5420246	Stainless steel colour matt	0 - 90°	Yes

TECHNICAL DETAILS

- Product range: Square 15
- Material: Stainless steel
- Width: 15 mm
- Height: 15 mm

WALL CONNECTOR SQUARE 15

Wall connector for connecting the Square 15 reinforcement bar to a fixed wall.

YOUR BENEFITS

- Small unobtrusive design

TECHNICAL DETAILS

- Product range: Square 15
- Material: Stainless steel
- Width: 15 mm
- Height: 15 mm

ART NO.	COLOUR SCHEME	ANGLE	ADJUSTABLE
BO 5420243	Stainless steel colour shiny	90°	No
BO 5420242	Stainless steel colour matt	90°	No

GLASS CONNECTOR SQUARE 15, END PIECE

Glass connector suitable for the Square 15 reinforcement bar, used to connect a fixed glass side panel to a reinforcement bar. This glass connector is clamped onto the upper glass edge and is freely adjustable in angle.

YOUR BENEFITS

- No glass processing required
- Small unobtrusive design
- Stepless angle adjustment

TECHNICAL DETAILS

- Product range: Square 15
- Glass thickness ESG: 6 - 10 mm
- Material: Stainless steel
- Width: 15 mm
- Height: 15 mm

ART NO.	COLOUR SCHEME	ANGLE	ADJUSTABLE
BO 5420257	Stainless steel colour shiny	0 - 90°	Yes
BO 5420256	Stainless steel colour brushed matt	0 - 90°	Yes

GLASS CONNECTOR SQUARE 15, WITH THROUGH-OPENING

Glass connector with through-opening for sliding onto a reinforcement bar. This is clamped onto the upper edge of the fixed glass side panel, can be freely positioned along the length of the reinforcement bar and is infinitely adjustable in angle. Suitable for the Square 15 series.

YOUR BENEFITS

- No glass processing required
- Small, unobtrusive design
- Can be freely positioned along the length of the reinforcement bar

ART NO.	COLOUR SCHEME	ANGLE	ADJUSTABLE
BO 5420249	Stainless steel colour shiny	0 - 360°	Yes
BO 5420248	Stainless steel colour matt	0 - 360°	Yes

TECHNICAL DETAILS

- Product range: Square 15
- Glass thickness ESG: 6 - 10 mm
- Material: Stainless steel
- Width: 15 mm

THREE-POINT CONNECTOR SQUARE 15

Square 15 three-point connector for creating a 90° branch on a reinforcement bar, for example to hold two fixed side panels with just one reinforcement bar.

ART NO.	COLOUR SCHEME	ANGLE	ADJUSTABLE
BO 5420251	Stainless steel colour shiny	90°	No
BO 5420250	Stainless steel colour matt	90°	No

TECHNICAL DETAILS

- Product range: Square 15
- Material: Stainless steel
- Width: 15 mm
- Height: 15 mm

Shower door handles

Elegant shower door handles give every glass shower door that certain something and impress with their practical functionality. Whether square or round, as a shower doorknob or bar handle, made of metal, wood or glass: a shower door handle from Bohle promises high quality and enhances the look of any shower.

SHOWER DOORKNOB RK001

Due to its flat shape, the RK001 shower doorknob fits easily into the space between the door and fixed panel and is therefore particularly suitable for use with sliding doors. Of course, it can also be used with all other shower enclosures.

YOUR BENEFITS

- Particularly flat version for sliding doors
- Conical shape for a better grip

TECHNICAL DETAILS

- Mounting type: Screwed
- Glass thickness: 6 - 10 mm
- Hole diameter in the glass: 10 mm
- Depth: 9.5 mm
- Shape: Round

ART NO.	COLOUR SCHEME	MATERIAL	DIAMETER
BO 5213718	Stainless steel colour polished shiny	Stainless steel V2A	45 mm
BO 5213717	Stainless steel colour brushed matt	Stainless steel V2A	45 mm
BO 5213719	Black anodised E6, stained matt	Aluminium	45 mm

SHOWER DOORKNOB RK002

Its unobtrusive size makes the RK002 shower doorknob a classic among shower doorknobs. Available in many finishes, it has a generous round shape with easy-grip recesses.

YOUR BENEFITS

- Small, unobtrusive design
- With recessed grip

ART NO.	COLOUR SCHEME	MATERIAL	DIAMETER
BO 5213705	Chrome-plated shiny	Brass	32 mm
BO 5213706	Stainless steel colour brushed matt	Brass	32 mm
BO 5213705B	Black matt	Brass	32 mm

TECHNICAL DETAILS

- Mounting type: Screwed
- Glass thickness: 6 - 10 mm
- Hole diameter in the glass: 10 mm
- Depth: 30 mm
- Shape: Round

SHOWER DOORKNOB RK003

Thanks to its straight cylindrical shape and integrated circumferential handle grooves, the RK003 shower door knob adds a special design accent, despite its small size.

YOUR BENEFITS

- Small inconspicuous design
- Circumferential grooves increase grip

ART NO.	COLOUR SCHEME	MATERIAL	DIAMETER
BO 5213722	Chrome-plated shiny	Brass	30 mm

TECHNICAL DETAILS

- Mounting type: Screwed
- Glass thickness: 6 - 10 mm
- Hole diameter in the glass: 10 mm
- Depth: 30 mm
- Shape: Round

SHOWER DOORKNOB RK004

The RK004 shower doorknob is available in many different finishes. It has a pleasant flat design and easy to grip with wet hands.

YOUR BENEFITS

- Small, unobtrusive design
- Very easy to grip

ART NO.	COLOUR SCHEME	MATERIAL	DIAMETER
BO 5213701	Chrome-plated shiny	Brass	40 mm
BO 5213702	Chrome-plated matt	Brass	40 mm
BO 5213700	Stainless steel colour brushed matt	Brass	40 mm

TECHNICAL DETAILS

- Mounting type: Screwed
- Glass thickness: 6 - 10 mm
- Hole diameter in the glass: 16 mm
- Depth: 16 mm
- Shape: Round

SHOWER DOORKNOB RK005

Shower doorknob RK005. One doorknob, many possibilities. There is a choice of different diameters, lengths and materials. All equipped with an easy-to-grip, circumferential groove.

YOUR BENEFITS

- Available in different materials
- With circumferential handle groove

ART NO.	MATERIAL	DIAMETER	DEPTH
BO 5213733	Brass	30 mm	30 mm
BO 5206702	Brass	35 mm	35 mm
BO 5206700	Zinc die casting	35 mm	35 mm

TECHNICAL DETAILS

- Mounting type: Screwed
- Glass thickness: 6 - 10 mm
- Hole diameter in the glass: 12 mm
- Shape: Round
- Colour scheme: Chrome-plated shiny

SHOWER DOORKNOB RK006

The shower doorknob RK006 in single-sided design with an integrated recessed grip only has a flat counter-clamping plate with concealed screw on the inside.

YOUR BENEFITS

- Small, unobtrusive design
- With recessed grip
- Concealed screws

ART NO.	COLOUR SCHEME	MATERIAL	DIAMETER
BO 5213771	Chrome-plated shiny	Brass	22 mm

TECHNICAL DETAILS

- Mounting type: Screwed
- Glass thickness: 4 - 8 mm
- Hole diameter in the glass: 8 mm
- Depth: 29 mm
- Shape: Round

SHOWER DOORKNOB RK007, WITH BUFFER ON BOTH SIDES

The shower door knob has a stop buffer on both sides.

TECHNICAL DETAILS

- Mounting type: Screwed
- Diameter: 35 mm
- Hole diameter in the glass: 14 mm
- Colour scheme: Chrome-plated shiny
- Material: Brass

ART NO.	OUTER LENGTH	INNER LENGTH	GLASS THICKNESS
BK 0501531	37 mm	37 mm	6 - 12 mm

SHOWER DOORKNOB RK007, WITH BUFFER ON ONE SIDE

The shower door knob has a stop buffer on one side and is available in different handle lengths for the outside. It is particularly suitable for use in folding glass walls, as the bumper reliably prevent glass-to-metal contact.

TECHNICAL DETAILS

- Mounting type: Screwed
- Diameter: 35 mm
- Hole diameter in the glass: 14 mm
- Colour scheme: Chrome-plated shiny
- Material: Brass

ART NO.	OUTER LENGTH	INNER LENGTH	GLASS THICKNESS
BK 0501331	35 mm	17 mm	6 - 12 mm
BO 5213720	15 mm	17 mm	8 - 10 mm

SHOWER DOORKNOB RK008

The RK008 shower doorknob is anything but standard. Made of cast glass, it is a real highlight in the bathroom and can be combined with all materials and surfaces. Ergonomically shaped, it is easy to grip.

YOUR BENEFITS

- Unobtrusive design due to the use of glass

ART NO.	COLOUR SCHEME	MATERIAL	DIAMETER
BO 5213781	Colourless	Glass	37 mm

TECHNICAL DETAILS

- Mounting type: Screwed
- Glass thickness: 6 - 10 mm
- Hole diameter in the glass: 12 mm
- Depth: 31 mm
- Shape: Round

SAUNA DOORKNOB RK009

This doorknob made of hemlock is ideal for installation in sauna glass doors and fits perfectly with our Juna® sauna ranges.

YOUR BENEFITS

- Ideal for saunas
- Very easy to grip

ART NO.	COLOUR SCHEME	MATERIAL	DIAMETER
BO 5215020	Light oak	Wood	65 mm

TECHNICAL DETAILS

- Mounting type: Screwed
- Glass thickness: 8 mm
- Hole diameter in the glass: 16 mm
- Depth: 45 mm

SHOWER DOORKNOB SK001

Thanks to its square, angular shape, the SK001 shower door knob goes well with our angular shower door fittings, but can of course also be combined with any other series. Equipped with a wide heel, it is very easy to grip.

YOUR BENEFITS

- Very easy to grip

TECHNICAL DETAILS

- Mounting type: Screwed
- Hole diameter in the glass: 10 mm
- Width: 30 mm
- Depth: 30 mm
- Shape: Square

ART NO.	COLOUR SCHEME	MATERIAL	GLASS THICKNESS
BO 5206711	Chrome-plated shiny	Brass	6 - 10 mm
BO 5206713	Stainless steel colour brushed matt	Brass	6 - 10 mm
BO 5206711B	Black matt	Brass	6 - 10 mm

SHOWER DOORKNOB SK002

The shower doorknob SK002 fits well with the Bohle shower door fittings thanks to its angular, elongated shape. Equipped with a wide heel, it is very easy to grip.

YOUR BENEFITS

- Very easy to grip

TECHNICAL DETAILS

- Mounting type: Screwed
- Hole diameter in the glass: 10 mm
- Width: 70 mm
- Depth: 30 mm
- Shape: Square

ART NO.	COLOUR SCHEME	MATERIAL	GLASS THICKNESS
BO 5206717	Chrome-plated shiny	Brass	6 - 10 mm

SHOWER DOORKNOB SK003

Thanks to its angular shape, the SK003 shower doorknob can be combined well with our angular shower door fittings. Equipped with a grip groove, it is also easy to hold.

YOUR BENEFITS

- With recessed grip

TECHNICAL DETAILS

- Mounting type: Screwed
- Hole diameter in the glass: 10 mm
- Width: 30 mm
- Depth: 30 mm
- Shape: Square

ART NO.	COLOUR SCHEME	MATERIAL	GLASS THICKNESS
BO 5212526	Chrome-plated shiny	Brass	6 - 12 mm
BO 5212527	Stainless steel colour brushed matt	Brass	6 - 12 mm
BO 5212528	Black matt	Brass	6 - 12 mm
BO 5212529	Brass polished	Brass	6 - 12 mm
BO 5212530	Brass brushed	Brass	6 - 12 mm
BO 5212531	Copper brushed	Brass	6 - 12 mm
BO 5212532	White matt	Brass	6 - 12 mm
BO 5212533	Graphite matt	Brass	6 - 12 mm

Available from
4th quarter 2024

SHOWER DOOR HANDLE RH001

The RH001 shower door handle has a modern, mitred shape made from round tubing, which makes them easy to grip. Available in two different lengths and surface finishes.

YOUR BENEFITS

- Available in various surface finishes
- Particularly easy to grip
- Available in different lengths

TECHNICAL DETAILS

- Material: Stainless steel
- Hole diameter in the glass: 12 mm
- Diameter: 19 mm
- Depth: 60 mm

ART NO.	COLOUR SCHEME	DISTANCE BETWEEN CENTRE DRILL HOLES	GLASS THICKNESS
BO 5212511	Stainless steel colour polished shiny	152 mm	6 - 12 mm
BO 5212510	Stainless steel colour brushed matt	152 mm	6 - 12 mm
BO 5212515	Stainless steel colour polished shiny	203 mm	6 - 12 mm
BO 5212514	Stainless steel colour brushed matt	203 mm	6 - 12 mm

SHOWER DOOR HANDLE RH002

The RH002 shower door handle has an appealing modern shape made of round tubing, which makes them easy to grip. Single-sided design with door handle on the outside and unobtrusive knob on the inside.

YOUR BENEFITS

- Very easy to grip
- Small knob on the inside
- Can be used as a towel rail from the outside

ART NO.	COLOUR SCHEME	DISTANCE BETWEEN CENTRE DRILL HOLES	GLASS THICKNESS
BO 5215024	Stainless steel colour polished shiny	375 mm	6 - 12 mm

TECHNICAL DETAILS

- Material: Stainless steel
- Hole diameter in the glass: 14 mm
- Diameter: 25 mm
- Depth: 65 mm

SHOWER DOOR HANDLE RH003

The RH003 shower door handle has a modern, mitred shape made from round tubing, which makes them easy to grip. Single-sided design with door handle on the outside and unobtrusive knob on the inside.

YOUR BENEFITS

- Very easy to grip
- Small knob on the inside
- Can be used as a towel rail from the outside

ART NO.	COLOUR SCHEME	DISTANCE BETWEEN CENTRE DRILL HOLES	GLASS THICKNESS
BO 5215026	Stainless steel colour polished shiny	475 mm	6 - 12 mm

TECHNICAL DETAILS

- Material: Stainless steel
- Hole diameter in the glass: 14 mm
- Diameter: 25 mm
- Depth: 65 mm

SHOWER DOOR HANDLE RH004

The RH004 single-sided shower door handle is characterised by its curved shape made of round tubing with a good grip. This shower door handle can be used as a single-sided shower door handle or towel rail.

YOUR BENEFITS

- Available in different lengths
- Can be used as a towel rail from the outside

ART NO.	COLOUR SCHEME	DISTANCE BETWEEN CENTRE DRILL HOLES	GLASS THICKNESS
BO 5215034	Stainless steel colour polished shiny	457 mm	6 - 12 mm
BO 5215035	Stainless steel colour polished shiny	610 mm	6 - 12 mm

TECHNICAL DETAILS

- Material: Stainless steel
- Hole diameter in the glass: 12 mm
- Diameter: 19 mm
- Depth: 60 mm

PLEASE NOTE

Height of the end screw 8 mm

SHOWER DOOR HANDLE SH001

TECHNICAL DETAILS

- Material: Stainless steel
- Hole diameter in the glass: 10 mm
- Width: 19 mm
- Depth: 62 mm

The SH001 shower door handle has a modern, mitred shape made from elegant square tubing. Available in different lengths and finishes.

YOUR BENEFITS

- Available in various surface finishes
- Available in different lengths

ART NO.	COLOUR SCHEME	DISTANCE BETWEEN CENTRE DRILL HOLES	GLASS THICKNESS
BO 5212521	Stainless steel colour polished shiny	152 mm	6 - 10 mm
BO 5212520	Stainless steel colour brushed matt	152 mm	6 - 10 mm
BO 5212525	Stainless steel colour polished shiny	203 mm	6 - 10 mm

BO 5212524B	Black powder coated matt	203 mm	6 - 10 mm

SHOWER DOOR HANDLE SH002

TECHNICAL DETAILS

- Material: Stainless steel
- Hole diameter in the glass: 12 mm
- Width: 30 mm
- Depth: 65 mm

The SH002 shower door handle impresses with its modern, angular shape. The single-sided version is available with a door handle on the outside and an unobtrusive knob on the inside.

YOUR BENEFITS

- Modern simple form
- Small knob on the inside
- Can be used as a towel rail from the outside

ART NO.	COLOUR SCHEME	DISTANCE BETWEEN CENTRE DRILL HOLES	GLASS THICKNESS
BO 5215025	Stainless steel colour polished shiny	400 mm	6 - 12 mm

SHOWER DOOR HANDLE SELF-ADHESIVE ONE-SIDED

TECHNICAL DETAILS

- Material: Stainless steel
- Width: 12 mm
- Length: 150 mm

Self-adhesive door handle in a simple rod design. The handle is particularly suitable for sliding glass doors.

YOUR BENEFITS

- Self-adhesive
- Ideal for sliding doors

ART NO.	COLOUR SCHEME	DEPTH
BO 5113723	Stainless steel colour polished shiny	8 mm
BO 5113721	Stainless steel colour polished shiny	17 mm
BO 5113720	Stainless steel colour brushed matt	17 mm

Towel rail

Our towel rails are an ideal addition to any bathroom and are perfectly matched to all Bohle shower door hinges and fittings. Our range includes towel rails as attachments for glass showers or as classic holders with drilled holes. What they all have in common is their high quality and premium design.

TOWEL HOOK, ONE HOOK

The towel hook is the ideal addition to any glass shower. Simply clamped onto the upper glass edge of the shower, it eliminates the need for any drilling.

YOUR BENEFITS

- No glass processing required
- Towel is always positioned within easy reach of the shower
- Can be retrofitted

ART NO.	COLOUR SCHEME	GLASS THICKNESS	MODEL
BO 5420018	Chrome-plated shiny	8 - 10 mm	One hook

TECHNICAL DETAILS

- Material: Brass

TOWEL HOOK, TWO HOOKS

The towel hook is the ideal addition to any glass shower. Simply clamped onto the upper glass edge of the shower, it eliminates the need for any drilling.

YOUR BENEFITS

- No glass processing required
- Towel is always positioned within easy reach of the shower
- Can be retrofitted

ART NO.	COLOUR SCHEME	GLASS THICKNESS	MODEL
BO 5420019	Chrome-plated shiny	8 - 10 mm	Two hooks

TECHNICAL DETAILS

- Material: Brass

Door stops

The practical door stoppers prevent a shower door from opening in the wrong direction and prevent doors from being over-extended. They can be retrofitted quickly as they are usually simply placed on the glass edge of the fixed panel.

DOOR STOP FOR RETROFITTING, GLASS-WALL 90°

Door stops for retrofitting 90° glass-wall are screwed to the wall. They prevent the door from being pushed over in one direction. Fine adjustment of the door end position is made via the integrated eccentric adjustment.

YOUR BENEFITS

- Small, inconspicuous design
- Eccentric adjustment

ART NO.	COLOUR SCHEME	OPENING DIRECTION
BO 5420277	Chrome-plated shiny	DIN right and DIN left

TECHNICAL DETAILS

- Mounting type: Glass-Wall
- Glass thickness ESG: 6 - 12 mm
- Material: Brass

DOOR STOP FOR RETROFITTING, GLASS-GLASS 90°, DIN LEFT

Door stops for retrofitting 90° glass-glass are clamped onto the upper glass edge of the fixed side panel. They prevent the door from being pushed over in one direction.

YOUR BENEFITS

- Small, inconspicuous design
- Can be retrofitted

ART NO.	COLOUR SCHEME	OPENING DIRECTION
BO 5420275	Chrome-plated shiny	Left

TECHNICAL DETAILS

- Mounting type: Glass-Glass
- Glass thickness ESG: 6 - 10 mm
- Material: Brass

DOOR STOP FOR RETROFITTING, GLASS-GLASS 90°, DIN RIGHT

Door stops for retrofitting 90° glass-glass are clamped onto the upper glass edge of the fixed side panel. They prevent the door from being pushed over in one direction.

YOUR BENEFITS

- Small, inconspicuous design
- Can be retrofitted

ART NO.	COLOUR SCHEME	OPENING DIRECTION
BO 5420276	Chrome-plated shiny	Right

TECHNICAL DETAILS

- Mounting type: Glass-Glass
- Glass thickness ESG: 6 - 10 mm
- Material: Brass

DOOR STOP FOR RETROFITTING, GLASS-GLASS 180°, DIN LEFT

Door stops for retrofitting, glass-glass 180°, are clamped onto the upper glass edge of the fixed side panel. They prevent the door from opening or being pushed over in one direction.

ART NO.	COLOUR SCHEME	OPENING DIRECTION
BO 5420272	Chrome-plated shiny	Left
BO 5420274	Stainless steel colour nickel-plated brushed matt	Left
BO 5420270	Black cathodic coated (ktl) matt	Left

TECHNICAL DETAILS

- Mounting type: Glass-Glass
- Glass thickness ESG: 6 - 10 mm
- Material: Brass

DOOR STOP FOR RETROFITTING, GLASS-GLASS 180°, DIN RIGHT

Door stops for retrofitting, glass-glass 180°, are clamped onto the upper glass edge of the fixed side panel. They prevent the door from opening or being pushed over in one direction.

ART NO.	COLOUR SCHEME	OPENING DIRECTION
B0 5420271	Chrome-plated shiny	Right
B0 5420273	Stainless steel colour nickel-plated brushed matt	Right
B0 5420269	Black cathodic coated (ktl) matt	Right

TECHNICAL DETAILS

- Mounting type: Glass-Glass
- Glass thickness ESG: 6 - 10 mm
- Material: Brass

Shower door seals and glazing profiles

Shower door seals

A shower door seal is an indispensable element for the shower enclosure in many bathrooms. By sitting perfectly on the edge of the glass, it seals your shower and reduces water leakage to the outside. In our range, we offer high-quality seals as glass door seals that are suitable for every installation.

SHOWER DOOR SEAL WITH SHORT SEALING LIP

Shower door seals with a single sealing lip are suitable for both the hinge side and the underside and are used for both single-action and swing doors. The seal is simply slipped onto the edge of the glass.

YOUR BENEFITS

- High durability and UV resistance
- Highly transparent

ART NO.	GLASS THICKNESS ESG	LENGTH
BO 5281095	6 - 8 mm	2,500 mm

TECHNICAL DETAILS

- Stop type: Swing and stop door
- Fastening type: Push on
- Material: Polyvinyl chloride (PVC)

PLEASE NOTE

Quality product from Rehau Germany

SHOWER DOOR SEAL WITH 90° CORNER STOP

Shower door seals with corner stop are suitable for fixed glazing arranged at a 90° angle and are used exclusively with stop doors. An additional, soft sealing lip serves as a light stop buffer for the door. The seal is simply pushed onto the edge of the glass.

YOUR BENEFITS

- High durability and UV resistance
- Highly transparent

ART NO.	GLASS THICKNESS ESG	LENGTH
BO 5213519	6 - 8 mm	2,160 mm
BO 5281019	8 - 10 mm	2,160 mm

TECHNICAL DETAILS

- Stop type: Stop door
- Fastening type: Push on
- Angle: 90°
- Material: Polyvinyl chloride (PVC)

PLEASE NOTE

Quality product from Rehau Germany

SHOWER DOOR SEAL WITH LONG SEALING LIP

Shower door seals with a single sealing lip are suitable for both the hinge side and the underside and are used for both single-action and swing doors. The seal is simply slipped onto the edge of the glass.

YOUR BENEFITS

- High durability and UV resistance
- Highly transparent

ART NO.	GLASS THICKNESS ESG	LENGTH
BO 5213493	6 - 8 mm	2,160 mm
BO 5281093	10 - 12 mm	2,160 mm

TECHNICAL DETAILS

- Stop type: Swing and stop door
- Fastening type: Push on
- Material: Polyvinyl chloride (PVC)

PLEASE NOTE

Quality product from Rehau Germany

SHOWER DOOR SEAL WITH OPEN SEALING LIP

Shower door seals with an open sealing lip are suitable for both the handle side and the hinge side and are used in particular for single-action doors due to their asymmetrical shape. The seal is simply slipped onto the edge of the glass.

YOUR BENEFITS

- High durability and UV resistance
- Highly transparent

ART NO.	GLASS THICKNESS ESG	LENGTH
BO 5213492	8 mm	2,160 mm
BO 5281092	10 mm	2,160 mm

TECHNICAL DETAILS

- Stop type: Stop door
- Fastening type: Push on
- Material: Polyvinyl chloride (PVC)

PLEASE NOTE

Quality product from Rehau Germany

SHOWER DOOR SEAL WITH LONG WATER DEFLECTOR

Shower door seals with water deflector are suitable for both the hinge side and the underside and are used for both single-action and swing doors. The seal is simply slipped onto the edge of the glass.

YOUR BENEFITS

- High durability and UV resistance
- Highly transparent

ART NO.	GLASS THICKNESS ESG	LENGTH
BO 5281094	6 - 8 mm	2,010 mm

TECHNICAL DETAILS

- Stop type: Swing and stop door
- Fastening type: Push on
- Material: Polyvinyl chloride (PVC)

PLEASE NOTE

Quality product from Rehau Germany

SHOWER DOOR SEAL WITH SHORT WATER DEFLECTOR

Shower door seals with water deflectors are suitable for both the hinge side and the bottom edge. They are used for both single-action and double-action doors. The short sealing lip allows for particularly small gaps between the glass and the substrate.

YOUR BENEFITS

- High durability and UV resistance
- Highly transparent
- Easy to attach to the edge of the glass

ART NO.	GLASS THICKNESS ESG	LENGTH
BO 5213491	6 - 8 mm	2,160 mm

TECHNICAL DETAILS

- Stop type: Swing and stop door
- Fastening type: Push on
- Material: Polyvinyl chloride (PVC)

PLEASE NOTE

Quality product from Rehau Germany

SHOWER DOOR SEAL WITH SIDE SEALING LIP

Shower door seals with a side sealing lip are used for sliding doors. The seal is simply pushed onto the edge of the glass.

YOUR BENEFITS

- High durability and UV resistance
- Highly transparent

ART NO.	GLASS THICKNESS ESG	LENGTH
B0 5213524	8 mm	2,200 mm
B0 5213527	6 mm	2,200 mm

TECHNICAL DETAILS

- Stop type: Swing and stop door
- Fastening type: Push on
- Material: Polyvinyl chloride (PVC)

SHOWER DOOR SEAL WITH LOWER SEALING LIP

Shower door seals with a lower sealing lip are suitable for both the hinge side and the underside and are used for both single-action and double-action doors. The seal is simply slipped onto the edge of the glass.

YOUR BENEFITS

- High durability and UV resistance
- Highly transparent

ART NO.	GLASS THICKNESS ESG	LENGTH
B0 5213516	6 - 8 mm	2,160 mm

TECHNICAL DETAILS

- Stop type: Swing and stop door
- Fastening type: Push on
- Material: Polyvinyl chloride (PVC)

PLEASE NOTE

Quality product from Rehau Germany

SHOWER DOOR SEAL WITH 180° FRONT STOP

Shower door seals with front stop are suitable for aligned fixed glazing and are used exclusively with stop doors. An additional, soft sealing lip serves as a light stop buffer for the door. The seal is simply slipped onto the edge of the glass.

YOUR BENEFITS

- High durability and UV resistance
- Highly transparent

ART NO.	GLASS THICKNESS ESG	LENGTH
BO 5213518	6 - 8 mm	2,160 mm
BO 5281018	8 - 10 mm	2,160 mm

TECHNICAL DETAILS

- Stop type: Stop door
- Fastening type: Push on
- Angle: 180°
- Material: Polyvinyl chloride (PVC)

PLEASE NOTE

Quality product from Rehau Germany

SHOWER DOOR SEAL WITH WATER DEFLECTOR AND LOWER BELLOWS

Shower door seals with water deflector and lower bellows are particularly suitable for the underside and are used with both single-action and swing doors. The seal is simply pushed onto the edge of the glass.

YOUR BENEFITS

- High durability and UV resistance
- Highly transparent

ART NO.	GLASS THICKNESS ESG	LENGTH
BO 5213494	6 - 8 mm	2,010 mm

TECHNICAL DETAILS

- Stop type: Swing and stop door
- Fastening type: Push on
- Material: Polyvinyl chloride (PVC)

PLEASE NOTE

Quality product from Rehau Germany

SHOWER DOOR SEAL WITH BELLOWS

Shower door seals with bellows are suitable for both the handle side and the hinge side and are used in particular for swing doors due to their symmetrical shape. The seal is simply slipped onto the edge of the glass.

YOUR BENEFITS

- High durability and UV resistance
- Highly transparent

ART NO.	GLASS THICKNESS ESG	LENGTH
BO 5213517	6 - 8 mm	2,160 mm
BO 5281020	10 - 12 mm	2,160 mm

TECHNICAL DETAILS

- Stop type: Swing and stop door
- Fastening type: Push on
- Material: Polyvinyl chloride (PVC)

PLEASE NOTE

Quality product from Rehau Germany

SHOWER DOOR SEAL WITH BELLOWS FOR 8 MM GLASS

Shower door seals with bellows are suitable for both the handle side and the hinge side and are used in particular for swing doors due to their symmetrical shape. The seal is simply slipped onto the edge of the glass.

YOUR BENEFITS

- High durability and UV resistance
- Highly transparent

ART NO.	GLASS THICKNESS ESG	LENGTH
BO 5281021	8 mm	2,000 mm

TECHNICAL DETAILS

- Stop type: Swing and stop door
- Fastening type: Push on
- Material: Polyvinyl chloride (PVC)

PLEASE NOTE

Quality product from Rehau Germany

SHOWER DOOR SEAL WITH LOWER SEALING LIP AND WATER DEFLECTOR

Shower door seals with lower sealing lip and water deflector are particularly suitable for the underside and are used for both swing and single-action doors. The seal is simply slipped onto the edge of the glass.

YOUR BENEFITS

- High durability and UV resistance
- Highly transparent

ART NO.	GLASS THICKNESS ESG	LENGTH
BO 5213490	6 - 8 mm	2,160 mm
BO 5281091	10 - 12 mm	2,160 mm

PLEASE NOTE

Please order sealing profiles separately.

END CAP SET LEFT AND RIGHT AND 90° CORNER

The set, consisting of a left and a right end cap and a 90° corner, fits perfectly with the BK 6907031 / BK 6907082 splash guard. The splash guard reduces water leakage under the shower door.

ART NO.	COLOUR SCHEME
B0 5281000	Chrome-plated shiny
B0 5281001	White RAL 9010 powder coated

INCLUDED IN DELIVERY
1 Set End caps left and right
1 Piece 90° corner

TECHNICAL DETAILS
· Material: Plastic

SUPPORT PROFILE FOR SHOWER DOOR SEALING STRIPS

The pre-drilled support profile is used to hold a shower door sealing strips.

YOUR BENEFITS
· Pre-drilled
· Allows sealing strips to be attached to the wall side

ART NO.	COLOUR SCHEME	LENGTH
B0 5281040	Anodised E3, polished	2,010 mm
B0 5281042	Anodised E3, polished	2,500 mm

TECHNICAL DETAILS
· Material: Aluminium
· Mounting type: Recess solution

BATH ATTACHMENT PROFILE AND MAGNETIC RAIL SUPPORT

Due to the combination of the bath attachment profile and the magnetic strip support, the magnetic seal runs through from top to bottom in one piece. This allows the shower door to be kept closed.

YOUR BENEFITS

- Suitable for sealing strips BO 5213529 and BO 5281035
- Enables the combination of bath and shower

ART NO.	COLOUR SCHEME	LENGTH
BO 5281044	Anodised E3, polished	2,000 mm

TECHNICAL DETAILS

- Material: Aluminium
- Glass thickness: 6 - 8 mm

INCLUDED IN DELIVERY

- 1 Piece BO 5281033 Magnetic bar support
- 1 Piece BO 5281045 Bath attachment profile

BATH ATTACHMENT PROFILE 90°

The bath attachment profile enables the combination of shower and bath.

YOUR BENEFITS

- Suitable for magnetic support profile BO 5281033
- Enables the combination of bath and shower

ART NO.	COLOUR SCHEME	LENGTH
BO 5281045	Anodised E3, polished	2,000 mm

TECHNICAL DETAILS

- Material: Aluminium
- Glass thickness: 6 - 8 mm

MAGNETIC STRIP SUPPORT RECESS SOLUTION

The magnetic strip support allows a magnetic seal to be fitted for recess situations.

YOUR BENEFITS

- Suitable for sealing strips B0 5213529 and B0 5281035

ART NO.	COLOUR SCHEME	LENGTH
B0 5281033	Anodised E3, polished	2,000 mm

TECHNICAL DETAILS

- Material: Aluminium

INCLUDED IN DELIVERY

- 1 Piece Magnetic strip holder
- Screws
- Cover caps

Glazing profiles

Always the right profile: At Bohle, you can choose from a large selection of glazing and mirror profiles for protection and visual enhancement. In addition to many different dimensions, you will also find numerous finishes for every style and every taste.

U-PROFILE 10 X 10 MM

The right profile for every need: Bohle offers you a large, precisely fitting selection of U-profiles for visual enhancement in interior design. You can rely on high quality and good workmanship. All profiles are hard-wearing and suitable for use in damp rooms.

YOUR BENEFITS

- Drill guide in the bottom of the profile
- Corrosion-resistant and therefore suitable for use in bathrooms and kitchens
- Hard-wearing

TECHNICAL DETAILS

- Glass thickness: 6 - 6.76 mm
- Width: 10 mm
- Height: 10 mm
- Material thickness: 1 mm

Mirror mounting

Better safe than sorry!

Bohle's mirror product range is all about one thing: safety. Do not compromise when it comes to fixing small and large mirrors, regardless of whether you use mirror plates, adhesive tape or adhesive.

Mounting options

Each fixing method has its advantages and disadvantages. Mirror plates, for example, have a decisive advantage over adhesives or adhesive tapes in that they allow mirrors to be dismantled, i.e. they can be easily removed or better aligned using eccentric discs. Adhesives and adhesive tapes are particularly popular for the permanent attachment of mirrors.

You can rely on it!

Bohle AG has been a certified specialist bonding company since 2022. Strict DIN 2304 specifications determine our manufacturing process for mirror sheets, which has been approved by the Bonding Technology Centre. For example, our production room is contamination-free and guarantees consistent conditions at all times thanks to controlled air conditioning - precisely tailored to the working and bonding process. Our employees are trained with an additional bonding technology qualification.

Certification

Bohle is a certified specialist bonding company according to DIN 2304

Short distances

To keep emissions as low as possible, we work with suppliers from the local area (< 90 km). The mirror adhesive Xtragrip® MS Polymer is also EC1Plus R certified.

Large selection

We will answer your questions and recommend the right type of product for your project.

For expert advice and if you have questions, please contact us.

MIRROR CLIPS, WITH SPRING

Mirror clips are used for quick and easy vertical mounting of mirrors on a wall. The integrated cork insert protects the back of the mirror.

YOUR BENEFITS

- Integrated cork insert
- Small, inconspicuous design
- With spring

ART NO.	MATERIAL	LOAD CAPACITY	MIRROR SURFACE MAX.
BO 5207400	Steel	12 kg	1.2 m²

TECHNICAL DETAILS

- Glass thickness: 4 - 6 mm
- Colour scheme: Chrome-plated shiny

INCLUDED IN DELIVERY

- 2 Pieces Upper retaining clips with spring
- 2 Pieces Lower supporting clamps
- 4 Pieces Plugs
- 4 Pieces Wood screws

MIRROR CLIPS, REINFORCED VERSION

Mirror clips are used for quick and easy vertical mounting of mirrors on a wall. The integrated cork insert protects the back of the mirror.

YOUR BENEFITS

- Integrated cork insert
- Small, inconspicuous design

ART NO.	MATERIAL	LOAD CAPACITY	MIRROR SURFACE MAX.
BO 5207500	Brass	28 kg	1.6 m²

INCLUDED IN DELIVERY

- 4 Pieces Wood screws 4 x 35 mm
- 4 Pieces Cork plates
- 4 Pieces Adjustable brackets

TECHNICAL DETAILS

- Glass thickness: 4 - 6 mm
- Colour scheme: Chrome-plated shiny

HOLDING MAGNET

The holding magnet is a high-performance magnet for versatile use. The eccentric hole allows it to be fixed to the surface and aligned. The diameter is 45 mm.

YOUR BENEFITS

- High-performance magnet
- Versatile

ART NO.

BO 5208601

PLEASE NOTE

Not suitable for mounting mirror plates thinner than 2 mm.

TECHNICAL DETAILS

- Diameter: 45 mm
- Material thickness: 12 mm

ECCENTRIC DISC

The eccentric disc is an adjustable wall mounting for mirror plates. Subsequent height correction is quick and easy thanks to the applied scale. The adjustment is made via the pin hole on the side.

YOUR BENEFITS

- With setting scale
- Height correction +/- 4 mm

ART NO.

BO 5208602

TECHNICAL DETAILS

- Diameter: 37 mm
- Material thickness: 12 mm
- Colour: Cream
- Package contents: 10 Pieces

MOUNTING PLATE

The steel bracket is the ideal wall fastening for eyelet plates. The slotted hole makes a height adjustment of 20 mm possible. Two holes are provided for additional fastening.

YOUR BENEFITS

- Height adjustment of approx. 20 mm
- Additional mounting holes

ART NO.

BO 5208614

TECHNICAL DETAILS

- Colour scheme: Silver colour

PLINTO SPACER, ADJUSTABLE FROM 8 TO 12 MILLIMETRES

TECHNICAL DETAILS

- Material: Plastic
- Self-adhesive: No
- Wall distance: 12 mm
- Diameter: 47 mm
- Package contents: 100 Pieces

The spacer is ideal for use as a spacer disc for invisible mirror mounting systems. The installation and alignment of windows, doors and much more is also easy thanks to the millimetre-precise adjustment options.

YOUR BENEFITS

- Adjustable
- Easy assembly
- Versatile

ART NO.

BO 5121100

PLEASE NOTE

Hole diameter 4 millimetres.

PLINTO SPACER, ADJUSTABLE FROM 13 TO 20 MILLIMETRES

TECHNICAL DETAILS

- Material: Plastic
- Self-adhesive: No
- Wall distance: 20 mm
- Diameter: 59 mm
- Package contents: 100 Pieces

The spacer is ideal for use as a spacer disc for invisible mirror mounting systems. The installation and alignment of windows, doors and much more is also easy thanks to the millimetre-precise adjustment options.

YOUR BENEFITS

- Adjustable
- Easy assembly
- Versatile

ART NO.

BO 5121101

PLEASE NOTE

Hole diameter 4 millimetres.

MIRROR SCREWS WITH ROTATABLE HEAD

The complete set of mirror screws with rotatable heads is used for quick and easy installation of mirrors. Attractive appearance due to high-gloss chrome-plated cover caps.

TECHNICAL DETAILS

- Material: Zinc die casting
- Colour scheme: Chrome-plated shiny
- Glass thickness: 5 - 6 mm

INCLUDED IN DELIVERY

- 4 Pieces Screws
- 4 Pieces Plugs
- 4 Pieces Glass holder
- 4 Pieces Covers

YOUR BENEFITS

- Easy installation of mirrors
- No visible screws

ART NO.	HEAD SHAPE	DIAMETER	HEIGHT
BO 5200079	Flat	20 mm	15 mm

MIRROR SCREWS POINTED

Mirror screws are used in combination with the wood screws provided with a 1/8" threaded hole in the head to fix mirrors decoratively.

TECHNICAL DETAILS

- Material: Brass
- Colour scheme: Chrome-plated shiny
- Package contents: 100 Pieces

YOUR BENEFITS

- Easy attachment of mirrors

ART NO.	HEAD SHAPE	DIAMETER	HEIGHT
BO 5200980	Pointed	19 mm	4 mm

WOOD SCREWS

Wood screws with 1/8" inner thread for holding the mirror heads BO 52000980.
Mirror screws are used in combination with the wood screws provided with a 1/8" threaded hole in the head to fix mirrors decoratively.
Wood screws with 1/8" inner thread for holding the mirror heads BO 52000980.

YOUR BENEFITS

- Simple attachment of mirrors

ART NO.	DIAMETER	LENGTH
BO 5200985	4.5 mm	40 mm

TECHNICAL DETAILS

- Material: Steel
- Surface: Zinc Plated
- Thread type: External thread
- Package contents: 100 Pieces

PROTECTIVE SLEEVE

These plastic protective sleeves serve to avoid direct contact between wood screw and mirror when using the mirror screws.

YOUR BENEFITS

- Prevents glass - metal contact to protect the mirror

ART NO.	HOLE DIAMETER IN THE GLASS
BO 5200988	7 mm

TECHNICAL DETAILS

- Material: Plastic
- Colour scheme: Natural
- Package contents: 100 Pieces

SPACER

The foam spacer is mainly used in mirror mounting. It prevents deflection and stabilises the construction. It is used wherever there is a hollow space between the material and the substrate over large areas.

YOUR BENEFITS

- Prevents bending with large mirror surfaces
- High-strength foam

ART NO.	WALL DISTANCE
BO 5208600	12 mm

TECHNICAL DETAILS

- Material: Polyethylene foam
- Self-adhesive: Yes
- Material thickness: 12 mm
- Package contents: 20 Pieces

SPACER

Spacers prevent deflection and thus stabilise the structure. They are used where there is a cavity between the material and the substrate over large areas. This self-adhesive plastic variant is often used in the area of mirror mounting.

YOUR BENEFITS

- Self-adhesive
- Stabilising

ART NO.	WALL DISTANCE
BO 5208603	13 mm

TECHNICAL DETAILS

- Material: Plastic
- Self-adhesive: Yes
- Material thickness: 13.2 mm
- Package contents: 100 Pieces

XTRAMOUNT® MIRROR TAPE

With Xtramount®, mirrors can be fixed quickly and permanently, even in the bathroom. Good initial adhesion and high final strength characterise the adhesive tape, as does its good resistance to ageing. Xtramount® offers high quality for a long-lasting bond.

YOUR BENEFITS

- Resistant to ageing, weathering and plasticisers
- Durable bonding
- High final strength

TECHNICAL DETAILS

- Durability: 1 year
- Storage temperature (°C): 18 - 20 °C
- Moisture resistant: Yes
- Colour: White

ART NO.	WIDTH	MATERIAL THICKNESS	ROLL LENGTH
BO 5207750	15 mm	1 mm	5 m
BO 5207751	15 mm	1 mm	66 m
BO 5207752	19 mm	1 mm	5 m
BO 5207753	19 mm	1 mm	66 m
BO 5207754	19 mm	1.6 mm	5 m
BO 5207755	19 mm	1.6 mm	25 m
BO 5207746	25 mm	1 mm	66 m
BO 5207747	25 mm	1.6 mm	25 m
BO 5207748	70 mm	1 mm	10 m
BO 5207749	70 mm	1 mm	66 m

PLEASE NOTE

Not suitable for use on splinter protection films and adhesive tapes.

XTRAGRIP® MIRROR ADHESIVE SILICONE

Xtragrip® Silicone is suitable for tension-balancing bonding of mirrors according to DIN EN 1036 on all common building substrates. The one-component adhesive is neutral, solvent-free and permanently elastic.

YOUR BENEFITS

- Permanently elastic after curing
- Cure 1 mm/ 24 h
- Suitable for mirrors manufactured according to DIN EN 1036

ART NO.	PACKAGE CONTENTS
BO 6002005S	1 Cartridge

PLEASE NOTE

Pre-treat porous substrates with an adhesion promoter. Use up quickly after opening.

TECHNICAL DETAILS

- Non-yellowing: Yes
- Colour: Grey
- Hardening mechanism: Moisture curing
- Temperature resistance (°C): -40 - 150 °C

XTRAGRIP® MIRROR ADHESIVE MS POLYMER

The mirror adhesive offers fast curing and good initial adhesion. It is low-emission, silicone- and isocyanate-free and therefore easy to use. Tension-free installation of mirrors according to DIN EN 1036 is possible on all common building substrates, without any problems.

YOUR BENEFITS

- Good initial adhesion
- Fast curing of 2-3 mm/ 24 h
- Very low emissions, EC1Plus R certified

ART NO.	PACKAGE CONTENTS
BO 5730005	1 Cartridge

PLEASE NOTE

Pre-treat porous substrates with an adhesion promoter. Use up quickly after opening.

TECHNICAL DETAILS

- Colour: Grey
- Hardening mechanism: Moisture curing
- Temperature resistance (°C): -40 - 90 °C
- Application area: Indoor

SOUDAL PRIMER 150

Soudal Primer 150 improves the adhesion of silicones and MS polymers on porous substrates. It is mainly used for the assembly of mirrors with Xtragrip® mirror adhesive and Xtragrip® MS polymer. Its use is also recommended in cases of increased humidity.

YOUR BENEFITS

- Simple application
- For porous substrates

ART NO.	PACKAGE CONTENTS
BO 6002006	1 Bottle

PLEASE NOTE

Covers approx. 5 m² / litre

TECHNICAL DETAILS

- Colour: Colourless
- Solvent-free: No
- Content: 500 ml
- Consistency: Liquid

Mirror profiles

Mirror mounting profiles are a timeless and simple method of attaching mirrors. The mirror is simply inserted into the mirror mounting profile so that no glass processing or bonding is necessary. Mirror mounting profiles can also be used to protect or decoratively enhance the edges of the mirror. All mirror mounting profiles are also corrosion-resistant and therefore suitable for use in bathrooms and kitchens.

MIRROR PROFILE

The mirror profile is suitable for simple and safe mirror installation and is resistant to environmental influences.

YOUR BENEFITS

- Classic, elegant mirror profile for simple and secure mirror mounting
- With drill guide in the profile
- Corrosion-resistant and therefore suitable for use in bathrooms and kitchens

ART NO.	COLOUR SCHEME	LENGTH
BO 5208001	Aluminium colour E6, stained matt	5,000 mm
BO 5208005	Stainless steel colour anodised E6, stained matt	5,000 mm

TECHNICAL DETAILS

- Glass thickness: 6 mm
- Width: 13 mm
- Height: 35 mm
- Material thickness: 1.8 mm
- Material: Aluminium

MIRROR PROFILE CLIP-ON

Clip-on mirror profile impress with their particularly simple installation thanks to the clip cover profile: the mirror does not have to be inserted vertically into the profile, but is inserted from the front and securely fixed with the cover profile.

YOUR BENEFITS

- Classic, beautifully shaped mirror profile
- With drill guide in the profile
- Corrosion-resistant and therefore suitable for use in bathrooms and kitchens

ART NO.	COLOUR SCHEME	LENGTH
BO 5208025	Aluminium colour anodised E6, stained matt	5,000 mm

TECHNICAL DETAILS

- Glass thickness: 6 mm
- Width: 13 mm
- Height: 35 mm
- Material thickness: 1.8 mm
- Material: Aluminium

END CAP SET MIRROR PROFILE

End caps for a perfect finish to match the one-piece and two-piece mirror profiles.

YOUR BENEFITS

- Clean finish

ART NO.	COLOUR SCHEME
---------	---------------

BO 5208030	Silver colour
------------	---------------

BO 5208031	Stainless steel colour
------------	------------------------

INCLUDED IN DELIVERY

5 Pieces End cap left

5 Pieces End cap right

TECHNICAL DETAILS

- Material: Plastic (ABS)

MIRROR RAIL

The concealed mirror rail is used to hold the counter rail and is hard-wearing and suitable for damp rooms.

YOUR BENEFITS

- Invisible mirror rail
- Particularly easy assembly
- Load capacity using the Xtramount adhesive tape for mirrors weighing up to 20 kg/m

ART NO.	COLOUR SCHEME	LENGTH
---------	---------------	--------

BO 5208016	Anodised matt	2,000 mm
------------	---------------	----------

TECHNICAL DETAILS

- Glass thickness: 6 mm
- Width: 7.3 mm
- Height: 81 mm
- Material thickness: 1.5 mm
- Material: Aluminium

MIRROR PROFILE J

The J-mirror profile is the classic mirror profile for simple and safe mirror installation.

YOUR BENEFITS

- Classic mirror profile for easy and safe mirror mounting
- Corrosion-resistant and therefore suitable for use in bathrooms and kitchens
- Suitable for use with L or T mirror profiles (BO 60GDX61S and BO 60GDX62S, BO 60GDX63S)

ART NO.	COLOUR SCHEME	LENGTH
BO 6703450	Aluminium colour anodised E6, stained matt	2,500 mm

TECHNICAL DETAILS

- Glass thickness: 6 mm
- Width: 9 mm
- Height: 35 mm
- Material thickness: 1 mm
- Material: Aluminium

MIRROR PROFILE L

The mirror profile L is suitable as protection and for high-quality visual panelling of the edges, and is hard-wearing and suitable for damp rooms.

YOUR BENEFITS

- Edge protector profile for mirrors
- Suitable for use with J, L or T mirror profiles (BO 60GDX60S, BO 60GDX61S, BO 60GDX63S)
- Corrosion-resistant and therefore suitable for use in bathrooms and kitchens

ART NO.	COLOUR SCHEME	LENGTH
BO 6703456	Aluminium colour anodised E6, stained matt	2,500 mm

TECHNICAL DETAILS

- Glass thickness: 6 mm
- Width: 8 mm
- Height: 19 mm
- Material thickness: 1 mm
- Material: Aluminium

CENTRE PROFILE H

The centre profile H is suitable for dividing the mirror and serves both as protection and for visually high-quality cladding of the edges. It is hard-wearing and suitable for damp rooms.

YOUR BENEFITS

- For the division of a mirror
- To be used with J- and L-mirror profiles (BO 6703450, BO 6703456)

ART NO.	COLOUR SCHEME	LENGTH
BO 6703459	Aluminium colour anodised E6, stained matt	2,500 mm

TECHNICAL DETAILS

- Glass thickness: 6 mm
- Width: 9 mm
- Height: 32 mm
- Material thickness: 1 mm
- Material: Aluminium

EDGE PROFILE L

The edge profile L is suitable for protecting and visually enhancing edges and is hard-wearing and suitable for use in damp rooms. It thus joins the large, precisely fitting selection of glazing and mirror profiles from Bohle for interior or exterior construction.

YOUR BENEFITS

- Suitable as edge protection and/or for high-quality edge trim

ART NO.	COLOUR SCHEME	LENGTH
BO 5201517	Aluminium colour anodised E6, stained matt	2,500 mm

TECHNICAL DETAILS

- Width: 19 mm
- Height: 19 mm
- Material thickness: 1.5 mm
- Material: Aluminium

Mirror heating

Misted-up mirrors are a thing of the past with mirror heaters. They are self-adhesive and are simply stuck to the back of the mirror. Electrical conductors in the film heat the mirror to approx. 30°, preventing the formation of condensation.

MIRROR HEATER

TECHNICAL DETAILS

- Films: 0.8 mm
- Connection thickness for supply cable: 7 mm
- Electr. voltage: 230 V
- Cable length: 1 m

The mirror heaters prevent bathroom mirrors from fogging up. The self-adhesive heating film is stuck to the back of the mirror. Electrical conductors in the film heat the mirror to a harmless approx. 30° C. This effectively prevents the formation of condensation.

YOUR BENEFITS

- Fogging up of bathroom mirrors is prevented
- Available in different dimensions
- Easy mounting due to self-adhesive coating

ART NO.	WIDTH	LENGTH	ELECTR. POWER
BO 60GNX30	150 mm	274 mm	6.25 W
BO 60GNX31	274 mm	274 mm	12.5 W

BO 60GNX33	524 mm	524 mm	50 W
BO 60GNX34	524 mm	1,024 mm	100 W

Useful helpers

Aqua Drill Pro wet drilling machine	256
Veribor® vacuum technology	260
Consumables	265

Aqua Drill Pro wet drilling machine

Impressively powerful. This is the Aqua Drill Pro, which now makes wet drilling child's play. Experienced users know what to expect if something goes wrong when drilling tiles or granite slabs: Trouble, loss of time, additional costs. But all this can be avoided with the right equipment. The Aqua Drill Pro is designed for drilling through the hardest materials quickly and, above all, without breaking.

Three conditions for ideal wet drilling results

Optimum cooling

The continuous water supply and drainage enables optimum cooling to keep temperatures as low as possible and achieve best drilling results.

Low contact pressure

The special diamond hollow drills enable maximum abrasion while drilling and thus reduce the contact pressure.

Drilling aid templates

Three different drilling aid templates are available to choose from. They ensure full control when applying the drill – without undesired movements.

Overview

1. High quality Bohle water feed chuck
2. Four switchable speeds
3. Adjustable torque control
4. Universal drill connection 1/2"
5. Ergonomic handle
6. Fast coupling for water intake
7. Powerful Lithium-ion battery, 18 V/6 Ah

AQUA DRILL WET DRILLING MACHINE

With a torque of 90 Nm and a speed of 3,850 rpm, this compact powerhouse knows no natural limits. The result is extremely fast and break-free drilling as well as clean and dirt-free work.

ART NO.	ELECTRICAL CONNECTION	REVOLUTION
BO 79.304	230V-50Hz-1NPE	0 - 3,850 U/min

TECHNICAL DETAILS

- Drive type: Battery
- Application area: Tiles, Granite, Ceramics, Glass, Stone, Wet, Indoor, Outside, Mobile
- External thread: ½"

INCLUDED IN DELIVERY

- 1 Piece FEIN cordless drill/driver
- 1 Piece High-quality Bohle water feed chuck
- 1 Piece Powerful lithium-ion battery 18V / 6 Ah
- 1 Piece Spare battery 18V / 6 Ah
- 1 Piece Charger
- 1 Piece Quick coupling for water supply
- 1 Piece Bit chuck
- 1 Piece Quick-action drill chuck
- 1 Piece Toolbox

CERAMIC DIAMOND HOLLOW DRILL

The ceramic diamond hollow drill bit, specially developed for the Bohle Aqua Drill wet drill, is designed for use on hard ceramic tiles, granite, marble and normal tiles.

YOUR BENEFITS

- Specially developed for the Bohle Aqua Drill wet drilling machine
- Manual drill bit change without tools

ART NO.	DIAMETER	REVOLUTION
BO 79.4605	5 mm	0 - 3,850 U/min
BO 79.4606	6 mm	0 - 3,850 U/min
BO 79.4607	7 mm	0 - 3,850 U/min
BO 79.4608	8 mm	0 - 3,850 U/min
BO 79.4610	10 mm	0 - 3,850 U/min
BO 79.4612	12 mm	0 - 3,850 U/min
BO 79.4614	14 mm	0 - 1,950 U/min

TECHNICAL DETAILS

- External thread: ½"
- Application area: Tiles, Ceramics, Marble, Wet, Outside, Indoor

DRILLING AID TEMPLATE WITH WATER SUPPLY / WATER COLLECTION DRAIN

The drilling aid template with water supply / water collection drain enables precise drilling with minimal contamination of the surrounding area. The drilling dust is discharged with the cooling water from the sealed dirt chamber via the drain hose (sealed to the tile and the drill).

YOUR BENEFITS

- Optimum cooling for unbreakable drilling
- Permanent water supply and drainage
- Special interchangeable drill bushes for diameters 6, 8, 10, 12 mm

ART NO.

BO 79.350

DRILLING AID FOR PIN DRILL

The spot-drilling aid for dowel drills in diameters \varnothing 6; 8; 10; 12 mm enables precise drilling. The drilling aid has an adjustable drilling plate. The sealing lip on the suction cup is also suitable for rougher substrates.

ART NO.

BO 79.351

DRILLING AID - ADJUSTABLE

The drilling aid for pin drills with an adjustable universal drilling guide for diameters of \varnothing 20 - 70 mm enables precise drilling. The sealing lip on the suction cup is also suitable for rougher substrates.

ART NO.

BO 79.352

WATER PRESSURE TANK 12 L

The mobile water pressure tank enables a mains-independent water supply for machines with diamond tools and can be used in the stone, sanitary and glass sectors. The integrated manometer enables constant pressure monitoring.

YOUR BENEFITS

- Independent water supply

ART NO.

B0 79.370

WATER FEED CHUCK FOR 43 MM DIAMETER COLLAR

The water feed chuck is suitable for diamond hollow drills with ½" threaded connection and fits all standard drilling machines with a 43 mm diameter collar (open-end spanner 24 mm).

YOUR BENEFITS

- Stainless steel shaft

ART NO.

B0 79.BG095

PLEASE NOTE

Spare part for B0 79.300; however not suitable for B0 79.302, B0 79.303 and B0 79.304!

TECHNICAL DETAILS

- External thread: ½"

WATER FEED CHUCK WITH MOUNTING SHAFT

This water feed chuck with mounting shaft for standard drill chuck of any cordless drill is an inexpensive alternative for the use of diamond hollow drills for glass and tile drilling.

YOUR BENEFITS

- With mounting shaft for standard drill chuck of any cordless drill

ART NO.

B0 79.12A

TECHNICAL DETAILS

- External thread: ½"

Veribor® vacuum technology

Premium Suction Lifter: Safety as standard

As a specialist in vacuum technology with over 70 years of experience, we make lifting, carrying and transporting easier. Our quality brand Veribor® places particular emphasis on high safety and ergonomics. We know the perfect handling aid for every material!

- Ergonomic, back-friendly lifting and carrying of bulky, heavy building elements
- Lower costs due to less transport damage
- More grip safety through increased carrying comfort
- The right model for every surface and every material

VERIBOR
MADE IN GERMANY

Quality guarantee

It all starts with the in-house production of the rubber pads and ends with the manual assembly of the suction lifters. The production and the corresponding quality assurance take place in Haan, located in the German federal state of North Rhine-Westphalia. Even small individual parts, supplied by long-term partners, come from within a radius of 50 km. The result is a high quality Veribor® suction lifter that keeps its promises.

For expert advice and if you have questions, please contact us.

Veribor® battery-powered suction lifter - Now your thumbs can twiddle their thumbs

The new Veribor® cordless suction lifter puts an end to tedious manual operation. Suction is now done at the touch of a button - and re-pumping is even completely automatic. But that's not all: the tried-and-tested carrying aids with manual pump can be easily retrofitted. Switching between an electronic and manual pump takes just seconds.

Suction? All you need is a button.

The electronic battery-powered pump brings more convenience to your everyday work - and takes safety to a new level. At the touch of a button, the Veribor® battery-powered suction lifter sucks itself up in just a few seconds and automatically pumps again during your work if the vacuum should diminish.

No matter what challenge you are facing the battery-powered suction lifter can be relied upon to last a long time. The system enables around 600 pumping units with just one battery charge and proves its endurance in everyday work. But here too, trust is good, control is better. A signal lamp on the handle of the suction lifter informs the user about the battery status of the electric pump.

The nuts and bolts from A to Z.

The Veribor® suction lifter with battery is the first choice when it comes to lifting, holding and carrying larger components. With a load capacity of up to 120 kg, it is ideal for a wide variety of objects:

1. gas-tight, flat surfaces
2. glass
3. tiles
4. sheet metal
5. coated wooden panels
6. plastic panels

5 good reasons

1. powerful: 120 kg load capacity
2. convenient: quick vacuum build-up at the touch of a button
3. safe: automatic re-pumping
4. clear: LED display for vacuum and charge status
5. 2-fold safety mechanism when switching off

VERIBOR® BATTERY-POWERED SUCTION LIFTER, PLASTIC

TECHNICAL DETAILS

- Model: Battery-powered
- Diameter suction pad: 213 mm
- Surface geometry: Flat

The Veribor® cordless vacuum lifter stands for maximum efficiency and safety. One-handed operation and the smart safety concept bring more convenience to your working day. This is because suction takes place at the touch of a button - and even pumping is completely automatic.

YOUR BENEFITS

- Smart security concept
- More convenience when working thanks to one-handed operation
- LED display for vacuum and battery monitoring

ART NO.	LOAD CAPACITY	MATERIAL
BO 601GA	120 kg	Plastic (ABS)

INCLUDED IN DELIVERY

- 1 Piece Pump suction lifter
- 1 Piece Battery pump
- 1 Piece USB-C charging cable
- 1 Piece Case insert
- 1 Piece Storage case

PUMP SUCTION LIFTER VERIBOR®, ALUMINIUM

TECHNICAL DETAILS

- Model: Manual
- Diameter suction pad: 213 mm
- Surface geometry: Flat

The Veribor® BO 601 pump suction lifter is a real classic. It is equipped with a clearly visible vacuum safety indicator and numerous functional details. It holds large loads of up to 120 kg and is suitable for all materials and objects with flat, gas-tight surfaces.

YOUR BENEFITS

- Ergonomic handle shape
- High load capacity
- Clearly visible vacuum indicator

ART NO.	LOAD CAPACITY	MATERIAL
BO 601	120 kg	Aluminium

INCLUDED IN DELIVERY

- 1 Piece Pump suction lifter
- 1 Piece Veribor® Case

VERIBOR® PUMP SUCTION LIFTER, PLASTIC

TECHNICAL DETAILS

- Model: Manual
- Diameter suction pad: 213 mm
- Surface geometry: Flat

The Veribor® BO 601G pump suction lifter is a real design highlight - both in terms of appearance and comfort. It can hold heavy loads of up to 120 kg and is suitable for all materials and objects with gas-tight surfaces.

YOUR BENEFITS

- Ergonomic handle shape
- High load capacity
- Clearly visible vacuum indicator

ART NO.	LOAD CAPACITY	MATERIAL
BO 601G	120 kg	Plastic (ABS)

INCLUDED IN DELIVERY

- 1 Piece Pump suction lifter
- 1 Piece Veribor® Case

SUCTION LIFTER VERIBOR®, PLASTIC 2-CUP

Secure hold and optimum comfort: The Veribor® 2-cup suction lifter impresses with a large, non-slip grip area and sits perfectly in the hand. The toggle levers are ergonomic and user-friendly.

YOUR BENEFITS

- High level of safety and ergonomics
- Non-slip handle coating
- Free from carcinogenic hydrocarbon compounds (PAH)

ART NO.	LOAD CAPACITY	MATERIAL
BO 602.1G	50 kg	Plastic

TECHNICAL DETAILS

- Type of vacuum generation: Lever
- Diameter suction pad: 120 mm
- Surface geometry: Flat

VERIBOR® ALUMINIUM SUCTION LIFTER 3-CUP

The quality suction lifter of the Veribor® brand is the optimal helper for lifting and transporting gas-tight sheet materials. Regardless of the material, the suction lifter can carry a weight of up to 100 kg.

YOUR BENEFITS

- High safety and ergonomics
- Made from lead-free aluminium
- Wide contact surface of the rocker arms

ART NO.	LOAD CAPACITY	MATERIAL
BO 603.021	100 kg	Aluminium

TECHNICAL DETAILS

- Type of vacuum generation: Lever
- Diameter suction pad: 120 mm
- Surface geometry: Flat

VERIBOR® SEAMING TOOL

The Veribor® seaming tool is the perfect tool for precise and millimetre-accurate clamping, pulling together and spreading apart of large-surface, smooth plate materials.

YOUR BENEFITS

- Suitable for many diverse applications
- Free from carcinogenic hydrocarbon compounds (PAH)
- Exact positioning

ART NO.	TORQUE	MATERIAL
BO 650.33	260 Nm	Aluminium

TECHNICAL DETAILS

- Type of vacuum generation: Lever
- Diameter suction pad: 120 mm
- Surface geometry: Flat

VETROLEVEL SUCTION CUP WITH INTEGRATED SPIRIT LEVEL

VetroLevel quickly brings glass panes into alignment - thanks to the integrated spirit level. The proven vacuum technology of the Veribor® suction pad holds it securely in position so that the pane can be aligned comfortably with both hands.

YOUR BENEFITS

- Quick assembly
- Suitable for aligning vertical and horizontal panes
- Adheres to smooth and gas-tight surfaces

ART NO.

BO 5140450

TECHNICAL DETAILS

- Diameter suction pad: 90 mm

KGS® FLEXIS® DIAMOND HAND GRINDING PAD

The KGS® Flexis® diamond hand grinding pad is an adaptable and versatile tool for the manual deburring and grinding of edges on glass, ceramic and granite. The hand grinding pad can be used dry and wet.

YOUR BENEFITS

- Flexible grinding surface
- Good, long-lasting grinding performance

ART NO.	GRIT	COLOUR
BO 5007912	120	Black
BO 5007922	220	Red
BO 5007936	400	Yellow

TECHNICAL DETAILS

- Width: 55
- Length: 90
- Material: Diamond

PLEASE NOTE

Metal binding of the KGS® Flexis® diamond pattern

GLAZING BLOCK TRANSPARENT

Transparent glazing blocks are ideal for transparent all-glass installations or showers. Transparent blocks are used wherever coloured blocks would spoil the look. A good complement to the classic wooden block, and versatile in use.

YOUR BENEFITS

- Clear look
- Versatile

TECHNICAL DETAILS

- Material: Polyvinyl chloride (PVC)
- Length: 50 mm
- Width: 6 mm
- Colour: Transparent

ART NO.	MATERIAL THICKNESS	PACKAGE CONTENTS
BO 5121001	1 mm	100 Pieces
BO 5121002	2 mm	100 Pieces
BO 5121003	3 mm	100 Pieces

ECONOMY WOOD GLAZING SHOVEL

Glazing shovels are used for professional blocking of glazing units. The Economy glazing shovel is made of beech wood. As a lever tool, it can be used wherever delicate materials need to be lifted.

YOUR BENEFITS

- Made in Germany
- Made of wood without branch cuts

ART NO.
BO 5165000

TECHNICAL DETAILS

- Material: Beech wood
- Width: 70 mm
- Length: 280 mm

GLAZING SHOVEL PREMIUM PLASTIC

Glazing shovels are used for professional blocking of glazing units. The Premium glazing shovel is made entirely of impact-resistant plastic and offers a non-slip surface. As a lever tool, it can be used wherever sensitive materials need to be lifted.

YOUR BENEFITS

- Made in Germany
- Sturdy design
- Impact resistant plastic

ART NO.

BO 5165301

TECHNICAL DETAILS

- Material handle: Plastic
- Width: 74 mm
- Length: 282 mm

GLAZING SHOVEL PLASTIC WITH WOODEN HANDLE

Glazing shovels are used for professional blocking of glazing units. This glazing shovel combines the sturdy plastic head with a hardwood handle. As a lever tool, it can be used wherever delicate materials need to be lifted.

YOUR BENEFITS

- Sturdy plastic head
- Ergonomic handle

ART NO.

BO 5165400

TECHNICAL DETAILS

- Material: Plastic
- Material handle: Beech wood
- Width: 66 mm
- Length: 275 mm

GLAZING SHOVEL PREMIUM PLASTIC WITH WOODEN HANDLE XL

Glazing shovels are used for professional blocking of glazing units. The XL glazing shovel has an extra-long wooden handle on a sturdy plastic head. As a lever tool, it can be used wherever delicate materials need to be lifted.

YOUR BENEFITS

- Extra long handle
- Sturdy design

ART NO.

BO 5165401

TECHNICAL DETAILS

- Material handle: Wood
- Width: 68 mm
- Length: 290 mm

"COX" EASIFLOW™ CARTRIDGE GUN

The simple and robust cartridge gun is used to apply paste-like adhesives and sealants. Adhesive joints and sealing joints can be made easily.

YOUR BENEFITS

- With overrun brake
- Simple entry-level model

ART NO.	SUITABLE FOR	MODEL
BO 5104900	Cartridge 310 ml	Open

TECHNICAL DETAILS

- Material: Metal
- Colour: Orange

CARTRIDGE GUN H40+

The H40+ is used to apply adhesives and sealants. The 360° rotatable frame enables uninterrupted alignment during dispensing. The one-handed operation enables even dispensing control. This guarantees fast and smooth work.

YOUR BENEFITS

- One-handed operation for fast and precise dosing
- Adjustable handle alignment
- Precise bead application

ART NO.	SUITABLE FOR	MODEL
BO 5105041	Cartridge 310 ml	Half shell

TECHNICAL DETAILS

- Material: Aluminium, Steel
- Colour: Red

VULKOLLAN® SCRAPER FILLER

The scraper filler is used for the professional and expert execution of sealing joints. The four corners of the scraper filler offer different angles. They are cut individually to create the necessary joint width.

ART NO.	MATERIAL THICKNESS	MODEL
BO 5166301	5 mm	Rectangular

TECHNICAL DETAILS

- Material: Vulkollan®
- Width: 90 mm
- Length: 90 mm

SKIMMING SPATULA

The scraper filler is used for the professional and expert execution of sealing joints. The four corners of the scraper filler offer different angles. They are cut individually to create the necessary joint width.

ART NO.	MATERIAL THICKNESS	MODEL
BO 5166303	7 mm	Rectangular

TECHNICAL DETAILS

- Material: Plastic
- Width: 80 mm
- Length: 85 mm

JOINT TROWEL SET DUPLEX RADII

The joint trowels are used for professional and expert execution of sealing joints. The slim shape makes smoothing possible even in hard-to-reach areas. They offer a choice of 7 different radii and a 90° angle to bring the joint into the desired shape.

YOUR BENEFITS

- High abrasion resistance and flexibility
- Slim shape for hard-to-reach areas

ART NO.	MATERIAL THICKNESS	MODEL
BO 5166306	5 mm	QR-02 Radius duplex

INCLUDED IN DELIVERY

- 1 Piece Radii 6 mm, 8 mm, 10 mm, 12 mm
- 1 Piece Radii 7 mm, 9 mm, 11 mm, 90° angle

TECHNICAL DETAILS

- Material: Plastic
- Width: 70 mm
- Length: 70 mm

JOINT TROWEL SET DUPLEX ANGLE

The joint trowels are used for professional and expert execution of sealing joints. The slim shape makes smoothing possible even in hard-to-reach areas. You have 8 different angles to choose from to bring the joint into the desired shape.

YOUR BENEFITS

- High abrasion resistance and flexibility
- Slim shape for hard-to-reach areas

ART NO.	MATERIAL THICKNESS	MODEL
BO 5166307	5 mm	QW-02 Angle duplex

INCLUDED IN DELIVERY

- 1 Piece Angle 6 mm, 8 mm, 10 mm, 12 mm
- 1 Piece Angle 7 mm, 9 mm, 11 mm, 90° angle

TECHNICAL DETAILS

- Material: Plastic
- Width: 70 mm
- Length: 70 mm

XTRACOLL® DOUBLE-SIDED ADHESIVE TAPE, PASSIVATED EDGE

TECHNICAL DETAILS

- Colour: Colourless
- Non-yellowing: Yes
- Shear strength on steel as per DIN EN 1939:1996 at 20°C: 90 N/625 mm²
- Temperature resistance (°C): -40 - 160 °C
- Moisture resistant: Yes

XtraColl® is the ideal adhesive tape for sealing glass joints where transparency is important, e.g. in all-glass systems, glass partitions, furniture construction or shower cubicles. Compared to silicone, you save considerable time and costs during installation. We recommend the B0650.33 or B0650.35 seaming tools as a working aid for pushing the glass panes together. When using XtraColl® on laminated safety glass with acoustic PVB film, its suitability must be checked in advance.

YOUR BENEFITS

- Significant time and cost savings compared to sealing with silicone
- Unreactive to external influences
- Ideal solution for sealing glass joints with high transparency

ART NO.	GLASS THICKNESS	WIDTH	MATERIAL THICKNESS
B0 5207952	8 - 8.76 mm	5 mm	3 mm
B0 5207953	10 - 10.76 mm	7 mm	3 mm
B0 5207954	12 - 12.76 mm	9 mm	3 mm
B0 5207955	17.52 mm	14 mm	3 mm

XTRACOLL® APPLICATOR

TECHNICAL DETAILS

- Colour: Black
- Material: Plastic

Use our applicator for easy and precise application of XtraColl® double-sided adhesive tapes on the glass edge.

YOUR BENEFITS

- Easy and precise application
- First-class appearance after bonding

ART NO.	GLASS THICKNESS
B0 5207946N	10.76 - 12.76 mm
B0 5207939N	8 - 10 mm

XTRACOLL® APPLICATOR EXTENSION INLAY

TECHNICAL DETAILS

- Colour: Black
- Material: Plastic

By simply changing the inlay, you can use the applicator for other glass thicknesses.

YOUR BENEFITS

- Easy and precise application
- First-class appearance after bonding

ART NO.	GLASS THICKNESS
B0 5207949	17.52 mm
B0 5207948	10 - 12 mm
B0 5207947	8 - 10 mm

Cleaning and surface protection

Cleaning	272
Surface protection	276

Cleaning

Always the best view - whether during glass processing or later in use. The range includes suitable cleaning agents and cloths, special cleaning agents, cleaning pastes and the corresponding accessories.

XTRACLEAN

XtraClean is the universal cleaner without aggressive ingredients. Limescale deposits in showers are removed just as quickly as abrasive or silicone residues. The only tool needed is a damp microfibre cloth. Easy application and high yield are guaranteed.

YOUR BENEFITS

- No irritating or corrosive ingredients.
- Quick application without costly tools
- Only a small quantity required

ART NO.	CONTENT
BO 5886004	20 g
BO 5886001	100 g
BO 5886003	5 kg

PLEASE NOTE

Not suitable for car paints.

TECHNICAL DETAILS

- Solvent-free: Yes
- Consistency: Paste
- Durability: 3 years
- Colour: Grey

SPECIAL CLEANER

The special cleaner optimally prepares surfaces for bonding and sealing. It degreases and cleans glass, metal, ceramics and rubber. It is ideal for pre-cleaning during UV bonding, bonding with 2-component silicone or mirror assembly. Adhesive residues can also be removed.

YOUR BENEFITS

- Grease-free surfaces for bonding and sealing work
- Suitable for glass, metal, ceramic and rubber

ART NO.	CONTENT
BO 5107911	1 l
BO 5107912	28 l

TECHNICAL DETAILS

- Density: 0.79 g/cm³
- Flash point (°C): 12 °C
- PH value: 3
- Solvent-free: No
- Colour: Colourless

GLASS CLEANER PREMIUM

Glass Cleaner Premium is ideal for cleaning glass without leaving streaks. It has a high cleaning power and counteracts new contamination. Best results are achieved when it is wiped away with a clean cloth shortly after application, without letting it dry.

YOUR BENEFITS

- Streak-free
- Spray bottle without propellant gas
- Biodegradable

ART NO.	CONTENT
BO 5107805	1 l
BO 5107807	12 l
BO 5107806	25 l

TECHNICAL DETAILS

- Density: 0.91 g/cm³
- PH value: 10.8
- Solvent-free: No
- Colour: Blue

PLEASE NOTE

Test application on other surfaces beforehand. Do not allow to dry to avoid visual impairment.

GLASS CLEANER PROFESSIONAL

The foam cleaner is ideal for streak-free cleaning of glass, tiles, mirrors and smooth plastic surfaces. It is used for basic cleaning of glass furniture and final cleaning after UV bonding. It is also excellently suited for cleaning glass parts after bonding.

YOUR BENEFITS

- Good yield
- Streak-free cleaning
- Environmentally friendly propellant

ART NO.	CONTENT
BO 5107900	600 ml

TECHNICAL DETAILS

- Density: 0.95 g/cm³
- Flash point (°C): -40 °C
- Solvent-free: No
- Colour: Colourless

PLEASE NOTE

Pressurised container. Protect from direct sunlight. Do not expose to temperatures above 50 °C.

SHOWER SQUEEGEE ECONOMY

The Economy squeegee is made of lightweight plastic and has a soft squeegee lip. It is ideal for streak-free removal of wet glass surfaces, e.g. in shower cubicles. The enclosed hook is self-adhesive. This means the squeegee can be hung up quickly and easily.

YOUR BENEFITS

- Ideal as an inexpensive give-away for your customers
- Available with printed company name and logo for optimal advertising opportunity

ART NO.	MODEL	PACKAGE CONTENTS
BO 5107811	Unprinted	20 Pieces
BO 5107812	Customer logo monochrome	100 Pieces
BO 5107813	Customer logo two-coloured	100 Pieces

TECHNICAL DETAILS

- Suspension: Yes
- Blade width: 23 cm
- Material: Plastic
- Colour: White

PAPER TOWEL

The paper towel offers good quality due to its high absorbency and good absorption rate. It is soft and low in lint. The rolls have a removable sleeve, which means that the paper can also be removed from the inside.

YOUR BENEFITS

- European Ecolabel
- PEFC

ART NO.	NUMBER OF SHEETS PER ROLL	COLOUR
BO 5141617	450	White

TECHNICAL DETAILS

- Number of layers: 2
- Width sheet: 35.5 cm
- Length sheet: 20 cm
- Package contents: 6 Rolls

PAPER TOWEL, INDUSTRIAL QUALITY

The industrial roll offers high quality through high absorbency and a high absorption rate. The perfect cleaning paper roll for every workshop. Soft and low-linting, the paper is versatile.

YOUR BENEFITS

- European Ecolabel

ART NO.	NUMBER OF SHEETS PER ROLL	COLOUR
BO 5141620	1,000	Grey
BO 5141621	1,000	Blue

TECHNICAL DETAILS

- Number of layers: 2
- Width sheet: 24
- Length sheet: 38
- Package contents: 2 Rolls

CLEANING PAPER, 4-PLY

Four layers of soft and low-linting paper offer the highest quality. The paper is absorbent and has a high absorption rate. Suitable for sensitive surfaces.

YOUR BENEFITS

- 4-ply
- Soft
- Low lint

ART NO.	NUMBER OF SHEETS PER ROLL	COLOUR
BO 5141625	1,000	White

TECHNICAL DETAILS

- Number of layers: 4
- Width sheet: 38 cm
- Length sheet: 38 cm
- Package contents: 1 Roll

MICROFIBRE CLOTHS ECONOMY

The microfibre cloths are suitable for cleaning all smooth and porous surfaces without streaks, even without chemical aids. They are made of non-woven fabric and can be washed several times.

YOUR BENEFITS

- Can be used without chemical additives
- Washable up to 90°C
- Ideal for use in the field of building cleaning

ART NO.	WEIGHT PER PIECE
---------	------------------

BO 5141642	15 g
------------	------

TECHNICAL DETAILS

- Width: 40 cm
- Length: 38 cm
- Package contents: 5 Pieces

MICROFIBRE CLOTHS PREMIUM

The high-quality microfibre cloths shorten cleaning times. Dirt and moisture are absorbed well and removed quickly. They enable effortless work without much physical exertion. The cloths can be washed at least 500 times and can be used dry or wet.

YOUR BENEFITS

- Efficient cleaning
- Quick removal of adhesive residues after UV bonding
- Washable 500 times

ART NO.	WEIGHT PER PIECE
---------	------------------

BC 5056000	50 g
------------	------

TECHNICAL DETAILS

- Width: 38 cm
- Length: 38 cm
- Package contents: 10 Pieces

Surface protection

BriteGuard® sets standards in the field of surface protection. The protection system for glass and glass-ceramic surfaces is extremely resistant and durable. It is easy to apply and can be applied manually or by machine.

BRITEGUARD® LIMESCALE REMOVER

The limescale remover is suitable for effortless removal of even stubborn limescale deposits. It can be used on glass, ceramic, metal and other acid-resistant surfaces. The ideal pre-cleaner to prepare calcified showers for coating with BriteGuard® Pro.

YOUR BENEFITS

- Powerful
- Mild, natural acid components
- Biodegradable

ART NO.	CONTENT
BO 5881001	1 l
BO 5885001	5 l

TECHNICAL DETAILS

- Density: 1.085 g/cm³
- PH value: 2.5
- Solvent-free: Yes
- Colour: Pink

PLEASE NOTE

Can also be used in glass washing machines to prevent water stains.

BRITEGUARD® PRO

BriteGuard® Pro protects all smooth glass and glass-ceramic surfaces from corrosion and creates an "easy to clean" surface. Dirt particles find it hard to adhere and water beads off. Pre-clean, apply, wipe dry, done! Suitable for indoor and outdoor use and durable for many years.

YOUR BENEFITS

- Long lasting protection
- Longer cleaning cycles
- No aggressive cleaners necessary

ART NO.	CONTENT
BO 5850101	100 ml
BO 5850500	500 ml
BO 5855000	5 l

TECHNICAL DETAILS

- Density: 0.79 g/cm³
- Flash point (°C): 12 °C
- Working temperature (°C): 10 - 30 °C
- Colour: Crystal clear

PLEASE NOTE

Only use suitable spraying equipment.
